Thread: [Looking for webshop script/template](#)

Mistershiny - September 12, 2021, 4:44 pm

Hi,

i'm looking for a webshop script something like olux script
i want to start a webshop, payment with btc and like a comment section where they can leave feedback behind over the product etc.
if someone can help me send me a message please!
[contract=tid]Start Contract[/contract]

Your best bet is to set up a basic Wix site for starters / small business, or WHMCS with Wordpress if you know how to use them.
