Are you tired of dying in your EFT raids but don't want to risk your account with cheats?? Let me carry you through your raids and make you filthy rich!

I use esp and no recoil and will kill everything in my path. Would love some new players who are looking for this kind of service to add me. I can help with quests or

anything you need. Add me on discord to get started :D

We look forward to seeing you!

Big Vouch for chr0matic. Gave me a vouch copy, then I purchased another 5 more games from him. Everything went smooth and he worked around my schedule.

Great guy, highly recommend.
