Thread: [\[RELEASE\] Mainecoon Hacked Client](#)

DemitriDev - September 16, 2021, 6:16 pm

Hi there!

Over the last 4ish months I've been working on making my first hacked Client for MC, and I think I got sort of stable Alpha Version of it working, I'm quite proud of it and have put a lot of effort into it, hope you enjoy!

Any Bugs can be reported to me here:

It's good i'll be watching

Cecchitout - November 26, 2021, 3:14 pm

why the fuck both virus total and my AV detect it as a trojan? i've been looking foward to try it since im starving for new clients, but i can't trust it enough on my own

Don't download it, based on the drop files in the VirusTotal report, it's a Monero miner.
