Thread: [Slots auto-spin script - easy!](#)

device - September 17, 2021, 4:18 pm

A very simple script for the high rollers that want to auto-spin on slots while doing something else on the computer.

Go on the HF slots page.

Right-click on your browser, inspect element, then console.

Just paste the following snippet in the console, and it will play on its own.

Refresh the page to stop the program. You can change the time increment by modifying the 1500 into what you like. 1500 is 1.5 second. 2000 for 2 seconds.

Enjoy!

```
Code function spinIt() {  
    slotMachine.spin();  
}
```

```
function newUpdate() {  
    var update = setInterval(spinIt, 1500);  
  
}
```

```
newUpdate(newUpdate);
```

Where did you find the function?

Isn't this the kind of script that can cause too much traffic for HF servers [Omniscient](#) ?

Probably not. If it does I would see it and we'd make adjustments.

Vibe - September 17, 2021, 7:43 pm

Gonna figure this out on mobile and try for the award thanks dawg

Net - September 18, 2021, 12:06 am

For the longest time I thought that auto-spin slots we're not allowed on this forum.

FYI I use a script for slot, I'm almost at 30k spins now, but didn't get the dice award yet

All-Time Spins: 29,011 Spins
All-Time Winnings: 51,337 ?ytes

Wondering if because I use a script, I'm not able to get the dice award ?

I think it's hilarious that both you and I have the Medal of Honor award (probably the hardest award to get on HF) and yet we don't have the damn Dicey still lmao. ?

I received it on my 130+ spins itself. I still did not know how that was possible. Between how did you manage to get the "Medal of Honor" award?

You lucky bastard haha. I'm over 11k spins and haven't gotten it yet, but they've all been manual spins up until now.

Gonna give this script a go at some point.

Also you get the Medal of Honor award by reaching level 50 in the Hack Game. It took me over a year to do it, and everyone else I know who's level 50+ also took them a year - little over a year to get it.

Pikzul - September 19, 2021, 7:48 am

Pretty cool dude. I tested it out and it works haha

By doing spam on the NASA job or did you do missions?

Livewire - October 2, 2022, 6:53 am

I'll check it out. I've never tried an auto-spin script, but get tired of pressing spin constantly.
