Thread: [Free XMR Silent Miner](#)

**portii** - September 22, 2021, 5:15 pm

Hey, im here to ask if there is any good but free XMR silent miners? im trying to start with no money and work my way up to get better miners and botnets. any info will help!

<https://github.com/UnamSanctam/SilentXMRMiner>  
<https://github.com/xmrig/xmrig>

But i dont recommend using free tools.

PureMiner actually the best on the market

**Green Flip** - September 23, 2021, 5:53 pm

do people actually make good passive income off of silent miners?

**Ph4n70M Phr34K** - September 24, 2021, 1:22 am

yes, if you can get devices with good GPU(at least 4gb ram) then its very profitable.

**portii** - September 24, 2021, 10:48 am

thanks, ive heard about both of them, but how do i make sure they work and how do i see how many connected targets i have? ive heard that minergate.com is a good tool to see how much you are getting and how many bots u have but i dont seem to find anyone who done it

(Sep 24, 2021 05:20 AM)ZELOS Wrote: [\[CITE\]](#) Only if you're mining ETH on your Bots GPU. (or ETC ; RVN )

If you're mining XMR on your bots CPU you'll need thousands online Bots. Wich means you'll need tens of thousands bots overall.

So my tip: Focus on ETH.

Cheers ?  
any free ETH miners?

**Radubote** - September 25, 2021, 11:43 pm

Put some money right And buy licence, IT s Best option

could u link me to it?

(Sep 24, 2021 10:59 AM)ZELOS Wrote: [\[CITE\]](#) If you are searching for a free ETH silent miner

builder I would try this:

<https://hackforums.net/showthread.php?tid=6145468>

If you want to see how much bots are exactly online / how much are working / wich GPU or CPU they have (and much more) I would try this (exactly what you need):

<https://hackforums.net/showthread.php?tid=6150723>

If you are searching for a good mining pool I recomment this:

<https://2miners.com/>

You can also try the Hackforums search function by searching for: silent miner ; eth miner ; free miner ; etc miner ... and so on.

Take care buddy!

ZELOS

that helped me lots, props to u!
