Got this done thank you to everyone that reached out.

Cyam - September 26, 2021, 3:23 am

Knew this, but it's always too buggy for me. It also doesn't stop you from going over the character limit in thread titles. This is why I prefer full edit.

Artisan - October 11, 2021, 10:28 pm

Didn't know about this. Seems very convenient. I only have one sales thread so I think this would be more convenient for people who have multiple threads that need to be edited constantly. Thanks for the share though.

LeetSpeed - October 11, 2021, 11:02 pm
