Thread: [\[50% OFF\] Phones | Samsungs | & More | Pre-Paid Locked | Newest Phones](#)

TrapWireless - September 28, 2021, 1:40 am

Welcome To Trap Wireless!

? Our Goal : We're here to provide phones at half the price they are worth! We are happy to work out bulk deals and use middle-man / escrow for first time purchases. ?

? IMPORTANT: Once you activate the PRE-PAID service on the phone, it will be locked for one year. After one year you can use it with any carrier you'd like, however unless you use an unlock service/RSIM you are LOCKED to the pre-paid service for ONE YEAR. ?

? Contact Us : [@TrapWirelessSupport](#) (Telegram)

? How does it work?

Step 1. Create a cart on the pre-paid carrier's website (You don't have to buy service until the phone arrives)

Step 2. Send @TrapWirelessSupport the Cart Total

Step 3. Pay 50% (Example: \$400 for \$800 Cart)

Step 4. Apply redemption codes we provide on checkout screen

REQUIREMENTS: Valid US Credit/Debit Card (\$5 shipping charge) + Valid US Address. No drop necessary, risk free.

We will not be able to discount any amount over \$800, so for example if your cart is \$999 you will need to pay \$199 with no 50% off discount applied.

For more information / which carrier you will be using contact @TrapWirelessSupport on Telegram.

Latest Phones, Samsungs, etc available.

this seems too good to be true

i will wait for reviews and then buy it

good luck with sales

Do you need to continue paying for the prepaid? Or can I buy phone and just wait out 1 year after 1 month prepaid or something or does it require me to buy prepaid for 1 year.

You'd honestly have to ask them yourself, you'll more likely have to pay for the service for a full year before being able to use it on another network. The alternative is RSIM/Unlock services but they are hit or miss. You can contact me for the name of the service.

Holy shit. I'm actually in the market for a new Samsung. Talk to me more about a vouch, please. :)

Looking for really high B-ratings and having a lot of people hitting me up at the moment for one. I'll let you know if i need one.

I ended up receiving the vouch copy and I was provided all the necessary information I needed to feel comfortable to do this. It isn't illegal or anything and OP has a unique method in place that I can't even begin to wonder about.

My phone should arrive tomorrow based off my tracking number and I will edit it when it does!

Edit: Received! Would have to recommend this service. No problems and everything seems worth it in my mind. Might have to get the Galaxy Fold 3 now haha.

Just a quick question for you, I'm still running an iPhone 8 Plus from T-Mobile, but my question to you is are these phones factory unlocked (if that's still even a thing)?

No, it is locked to a pre-paid carrier for 1 year. It wouldn't work on T-mobile

Honestly I took the risk of buying two phones with this guy and it paid off. He was able to get me 50% off my cart order [warn]

Just joined 10/1, and no contract created. seems like a very legit and trustworthy review.

I highly suggest everyone deal with caution.

OP hardly replies to me, he is online but he never replies back to me.

Never pay him upfront

You killed my codes and expect me to keep coughing up free ones lol.

I even told you we can use a middle-man and you refused, i wonder why that is? Take your "Business" elsewhere because dealing with you gives me a headache lol

shakur123 - October 9, 2021, 1:44 pm

Is only for US? is it possible to ship de phones elsewhere?

Firstly you never gave me any of the codes,
Secondly i give you cashapp card and address
Which you told me will work but didn't.

How I'm supposed to be wrong ?

You were testing things, I didn't.

kittyfemboy - October 21, 2021, 10:13 am

@Honey Singh You have been on Skype for a month and didn't reply to me after I purchased your Instagram unbanning services. You said you would offer a full refund if you couldn't do it, it has been more than a month and you do not reply or refund me. Now your thread is closed so I cannot leave a review of your BAD service
