Yes, you keep saying guaranteed but how will you guarantee it? Are you going to pay me my losses if let say 7/10 winrate instead of 8/10?

I'm just curious as I'm in a few signals group and they NEVER guarantee profit, despite being high winrate.

The success rate quoted, is based on analysis of years of trading crypto(and not been too selfish). If your going to talk about your signal group high winrate, please post the video here for everyone to see(not some photoshopped image), so we can also see the losses. I will also post the video of my losses here

I don't own a signal group, not competing with you my friend. I'm looking to join, just curious as to why you are guaranteeing something you should not?

A guarantee is a promise, so what happens if the guarantee is broken, all I'm asking.

Smdump - September 30, 2021, 2:26 pm

Sounds good. Could be interested

SIM-4831178 - September 30, 2021, 2:51 pm

If your best friend isn't a billionaire who has 50 billion dollars at least you cannot say that it's guaranteed as you cannot know who will move big funds to which project/stock/crypto. You cannot predict the market. If you could, you would just keep it for yourself and become multimillionaire within a year.

Stanley - October 11, 2021, 6:00 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

The account is dedicated for this service. I trade future with my personal account.
My Risk Reward ratio does vary. Have had 1.2 : 1, 1.3 : 1 , 1.4 : 1. In few cases is lower, due to a failed break out.

a few questions...

- do you have multiple TPs?

- what tends to be your SL? in %
- how many signals on avg per day?
- what timezone are you? and when do you start sending signals?

Thanks for the info.

Will wait for few more vouches, as \$100 still money for just 15 days.

And you need at least \$800 capital to recover it based on your winning rate.

Meanwhile, good luck

I pretty much doubt with this review, because the account was just created in this month.

Will waiting for valid review from senior and reputable members.

This "brokeguy" and "businessguy" have similar naming styles of usernames meaning that most likely the same person named both accounts.

Account was created a couple of weeks ago has B rating with the seller here.

Screams scam to be honest.

Be careful guys this guy is saying he's trading futures but all his videos of him on YouTube are showing normal "Spot orders" for Altcoins. This has nothing to do with trading, he is just buying altcoins on his YouTube :D

The essence of the videos uploaded, is to show everyone my calls(basically the coins i bought and when i sold them).I have personal account i trade futures with. Yes it shows my spot orders(how much i bought and how much i sold) and if i made profit or not from a trade. I usually start the videos from logging to opening my trade history for everyone to see my wins and losses. This is an irrefutable proof. This is better than the photoshoped earnings most people use to deceive newbies. This is better than vouches(people here usually tell there group members/friends to serve as vouches.). Though there are still some few real vouches

Unfortunately, you don't even know what your talking about. First of all, trading altcoins are usually more profitable than trading bitcoin, if you do your analysis well, because of there low marketcap and potentials for higher growth.

Finally, youtube don't sell crypto. You can't buy crypto altcoins in youtube. See, in a bid to run another person down, you ended up embarrassing your self. Try and be useful to your self ok.

By the way, you can expect to see more videos tommorow

CryptoSwitzerland - October 20, 2021, 12:39 pm

Why dont you show a video then of your future's trading where you claim to have 80% winrate? :D

Once again, you keep embarrassing your self. Is obvious you don't know what future trading is. I don't need to take a 2x or 4x leverage to demonstrate that my calls are actually winning. If the call is a win then is a win. It doesn't matter how many leverage i took.
