So I'm sure we all know those entitled women whom we call Karen's.. well they've made a movie about Karen. It's a pretty decent watch.

OK so they've gone back to what I think was the original meaning of the whole Karen meme rather than the new meme of someone who just gets pissed off with bad service. I feel bad for my aunt named Karin but it's spelled with an i. Hopefully since she's in her 70s she doesn't even know about the meme.

This looks so bad, is it a direct to dvd movie?

The fuck? Is this an actual movie? LOL. I heard about it, but didn't think it was real. Thought it was just satire. Will watch it soon.

This is absolutely nuts and I can't see how this is normalized, but I am definitely giving it a watch.

Might give it a watch. I remember Taryn Manning from Orange is The New Black.
