Thread: [\[WTS\] RuneScape 3 Gold - Constantly Restocking - PayPal ONLY](#)

Marine Corps - October 2, 2021, 8:13 am

I have a small personally owned and sourced RuneScape 3 gold farm. It's constantly restocking and often times I sell off the gold to larger resellers.

I would like to pivot to selling the gold myself and begin a vouch thread here exclusively. Only PayPal payments please.

Selling in 50/100M increments, 1B max per transaction.
All transactions are screen recorded.

To get started: please either [PM me](#) here, or Discord @ duplex#6948.
I come and go so response times may vary.

You do realize with the current rates of RS3 gold, 50M/100M transactions would be like \$2.75-\$5.50 transactions, correct? Most gold sellers will not touch a trade less than 300M.

Are you confusing this with OSRS gold?

Pentatonix,

Yes, I understand. I don't fork out huge amounts of gold per day. This is just a side thing. And with the intention of finding a group people interested if/when I have enough supply. Also included, I'm sure I will be one of the cheapest gold sellers out there. I've been selling to China and they don't pay very much. BUT I do have the security of selling to a larger, more trusted establishment.

PM me your rates. I would be interested in buying your entire supply on a consistent basis.

I'm closing this thread due to a overfilled pool of interested parties buying regularly.

In the future, please still contact me via PM or Discord, I'm constantly restocking. Both in gold and interested parties.
