Thread: [Who do you admire on HF?](#)

Parks - October 2, 2021, 7:25 pm

Is there anyone you specifically look up to here on HF? Someone that genuinely you feel like you can learn from or always watch out for the posts they make?

What Did You Find? ([Click to View](#))

Good question and topic. For me, nobody in particular.

Bankrupt - October 2, 2021, 7:32 pm

[iNviZ](#) is an O G member i always thought was pretty cool with the way he posts. idk if id say i look up to him but definitely respect.

Dopamine - October 2, 2021, 7:32 pm

I admire [Grim](#) and [flavoral](#) for their "brohomoromance".

Biggy - October 2, 2021, 7:34 pm

Someone I usually agree with most of their posts is inviz. Eagle95/Omni also make posts that give me a nice laugh. Charger too. xadam too... I could probably go on for days with this.

I wouldn't say I necessarily "admire" anyone, however definitely some members that post I take a second glance over.

Lavish Living - October 2, 2021, 7:34 pm

Omni and killjoy

I wanna be just like them when I get older

Parks - October 2, 2021, 7:45 pm

For me [Goodies](#) has some really thought out posts I see often in sections. I've maybe talked to him once but I sure do gain a lot of insight from his posts.

Glade to read this post, I appreciate buddy. The White Section needs more valuable members. Feel free to post in it, or ask things if you need.

In the same logic I would mention [Aura](#) . I'm here for 3 years now, trying to help people as much as he did, reading his old posts when I can. There are also lot of old members from the passed MRT team that I didn't meet yet.

Can't forget all members from Infamous group too ??

I didn't mean for that comment to sound like I didn't like anyone, but I guess that's how it sounded, my apologies! I was in touch with him when I first joined the website in 2013, up until about 2016.

Taught me coding, RAT's, SQL injections, PPD, PPC, crypto, stocks, simple networking, website development.

They say the ones who done the exploit robbed HF members when really it people like you lol.

Goodluck with your bytes my friend.

I admire the awards on HF.

If I'm wrong, I'm wrong. I'm new here, so I don't know the ins and outs of the market. I'm just guessing based on the patterns (I think) I'm seeing.

I'll probably give away most of them anyway, so it doesn't really matter.

And I don't see how paying above the going rate and then giving away bytes is robbing HF members. It's pretty much the exact opposite!

:-P

For me it's pretty easy, there are a few members I've been paying attention to, some are from just recently.

I'm not trying to get prices that high, I just think they might go that high. Believe me, I'd like to keep

them as low as possible, because I seem to be giving them all away. Even if they did go up to \$5 I'd probably not make any profit. But I doubt they will go that high since you told me the max was around \$2 before the whole Hackuman cheater thing. So I'm just losing some money. It's okay.

I feel like you've formulated a negative opinion of me, and that's too bad. I genuinely spend all my time on here trying to help people and brighten up their day. But everyone's has their own feelings about things, so whatever.

Have a nice day.

EDIT: Also, on topic for the thread: I actually admire you for not jacking up your byte prices like some other people when you could have. That's very cool of you. You seem like a good person.

In the beginning, I was into learning and I helped a lot in the RAT section. Even now I try to post tutorials. But now I am more into money-making and for free stuff.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small byte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I too dont think I admire anyone, but I really like Omni's posts, they are always informative and helpful.

bevc - December 12, 2021, 4:23 am

I admire anyone on this forum who is making enough money, or already has enough money, that they don't have to work a job. That's freedom.

I also admire any female members, because being a chick on this total sausage-fest of a forum is pretty brave.

how about you tell us who do you admire? [Parks](#)

I see myself looking up to you because of how cool that Donatello avi is... ?

Probably Orgy. First name to come to mind. Back in the day, they were a beast and well-respected person. This was before a fairly considerate amount of you all, like a decade ago where us oldfags contemplated commandeering Madagascar. That's a lie, there was so much going on then that it's difficult to remember.

'Lowkey' for all his stocks and threads he makes, really interesting and informative given the amount of time he spends on creating them.
