What's the rarest HUM egg you have had so far?

For me it would be the golden one, which I got from a post some time around the beginning of the year. Hoping to be able to get another golden egg someday.

Sick - October 3, 2021, 4:50 am

I was the first member to get the first ever gold and damn he was a strong HUM but because he was so strong my crew boss at the time put a bounty on my HUM kinda unfair i thought . But his stats never grew so every hit he was getting weaker and at the end it was a sorry sight to look at your HUM just dying in front of you and when he got so low anyone with a green egg with 1 hit could have killed him he was finished

Think now the stats on a gold egg have never been the same as the first one that came out as Xerotic didn't know how strong the first gold egg would be hence why he put a bounty on it ?

Oh wow! But why didn't the stats increase? And why did your crew boss put a bounty on it, shouldn't he be supporting you? What level did you get to?

He changed the settings so the HUM would not increase every hit he was being killed . He just done it because it was so strong i didn't like what he done thought it was very very low . That's what we all post for is to try win the gold egg and he basically took that away from me with the bounty . I can't mind what level i got to because strange things were happening some times i only got 6 attacks and that was it for several hours . To be fair it was a beast and i took out a lot of HUM and he didn't like that .. I did say the same thing why are you doing this your my crew boss and it's the first ever gold but yeah very pissed of about that

The day he finally died it was like a ticking clock every 5 seconds it was dropping health so fast then Nuworld came along and 1 hit game over

Was fun while it lasted but very unfair on how it went down !

This was him when he first came out

That does sound super frustrating. I just don't get why, because nowadays there's pretty much the same situation. There's a few people that have super strong HUMs that will kill anyone that comes close to them. No chance of beating them whatsoever.

Yeah i was very unhappy about it as i say we all post to get that egg and it was taken away as soon as i got him but to put a bounty on him was really really low i thought . now the game is just a shit show look at the 5 pages farming bytes that's all that is going on sad to see really but why it's being left like that i have no idea

Here he is just fresh egg but after a few kills his stats grew so so fast

50 bytes I think 3 days, bad timing bad & marketing strategy. I believe it was put up day after someone made a killing on a gold so everyone was tapped out

50 bytes is a pretty small amount, also 3 days is not too long. I would set the ticket price to about 500-1000 and set the maximum duration.

All you guys who have the 5 pages have killed the game for any new crew to come in it's a shame really but that's the way the game is looking

Reset the game and give newbies a chance is what's needing done ?

Maybe staff and admins thought about some new ability/special power/rules that will make the game a lot more interesting for all of us, no matter if Level 100 or killed 100 times by lvl 100s? We'll see, I am really excited to see what the new HUM will bring!

Yes, but more like the Headshot award, the Euthanasia award is pretty much impossible to get for most of us. Maybe I'll try again some time in the future, but for now I am tired of it haha

There's no doubt about it the game is ruined the way it's sitting just now something has to change to get players back in . When you used to see 20+ pages then the game was rocking but now yeah it's just a shit show a new HUM not the answer unless it's got power like 6 gold eggs . Surely you can see how bad the game is looking but yeah the eggs keep dropping and the shit show goes on lol

I guess eggs have been introduced one year ago, I posted around 1000 posts last year, and most of them are pretty long (I try to avoid posting LQ content), but only Emerald and Ruby ?

Do we now if there are some requirements to get blue/gold eggs ? Like minimum length of post ?

I get what you mean. The game really needs a change, I also hatched my first HUM in months today, not because I want to reach lvl 100, just because I had too many eggs lol.

Someone told me today that long posts will increase the chances of getting a golden egg, first time I heard that as well. So you should have been eligible. In the end it's still based off randomness as well.

Used to love to snipe .. Regarding the length of reply to win a gold nope we tried everything back in the day we tried on the sub forum on the Brotherhood and tried all lengths of replies from 20 letters to 400 and nope it's certainly a random drop i remember when i got mine lucky if it was 100 characters

But trust me we tried everything possible counting our characters .. Just gotta be lucky and be in the right place . We even tried on different threads with different numbers of characters but nope lol

We did mate we tried to crack the code lol .. But one good thing came from it every player then was in the Goons crew picked up the headshot award i was first then there was a few Goons after me . But yeah we tried hard to find out how to get sapphires and golds but then we just thought ok 100% random drop .We even counted threads lol . Yeah that's a great opportunity I guess, but I'm wondering if we need to met some requirements to get those eggs, like a minimum length of posts. I usually write posts more than 100 chars, but never got one for the time being

Due to the new award, most people post LQ content, and also low length posts

How much do you think you will get for the sapphire? I think eggs will sell for a lot less now, because there is such a lot of them at the moment. My green egg sold for 21 bytes yesterday.

I don't know someone said anything from 5k to 10k but i will stick it up for 10 bytes . Putting up crazy prices is just stupid your going to get more people entering if the price is low .. I had a green go on the lotto the other night got over 400 bytes for it .. But yeah there is an influx off eggs just now lol

Best time to put eggs on the lotto is like another 2 or 3 hours then bang them on . During the day is pointless most are still sleeping
