I'm a Pepsi guy I just don't know why been taking this for a long time now, I tried coke a while ago but it was different so I had to stop it. Just trying to know what HackForums users take.

Chrisy - October 3, 2021, 7:56 am

Pepsi max all the way! Love it!

Beherit - October 3, 2021, 7:56 am

I take my coffee black like my PC cases! No soda, unless I'm at a restaurant and I'll take a coke; usually they don't have Pepsi.

If you haven't tried cherry coke you're missing out man. When it comes to coke vs. pepsi I can appreciate both but cherry coke just blows both out of the water.

Thing is I think there's a time and place to have sugar since it kinda triggers the whole "I need more" cycle. Sugar frees have this nice and light taste to it that regular ones don't and I'm into it so yeah, I think they taste better.

It's basically a pepsi with lemon flavor.

It's still available in Serbia. I'm 30 minutes drive to the border but I'm not vaccinated and I don't want to pay for covid testing as it's not worth to get me some pepsi twist :(

The average monthly salary in Canada is \$33,984 per year or \$17.43 per hour. Entry-level positions start at \$28,800 per year, while most experienced workers make up to \$86,860 per year. \$2,832 a month is how much per year?

Coca cola uses more corn syrup sugar (fake) compared to the real stuff back in the day. It tastes a bit more watered down honestly.

Coca cola uses more corn syrup sugar (fake) compared to the real stuff back in the day. It tastes a bit more watered down honestly.

Yep it's why I cut all these sodas out...corn syrup isn't that great for your body.

Have you looked into the chemicals used in diet soda? A lot of it is worse than regular soda.

But times when I've been like fuck it and drunk regular coke regularly I packed on the pounds. That sh*** makes you gain fat fast!

I wouldn't say coke alone makes you gain weight fast. It's poor diet and exercise habits.

It's like saying, "Coke rotted all my teeth" While that might be partially true, shitty brushing and rinsing habits rotted your teeth.

But I've specifically noticed that times in my life when I didn't change my diet any other way but started drinking regular coke that I gained weight. When I changed from coke zero to frozen cokes I was upping my calories with empty calories.

I didn't so yeah I gained weight and went back to coke zero and had to eat less and work out more for a while to get rid of it. And I'm trying to drink more water than diet drinks but I still have diet drinks in the house just trying to mix it up with more water. I don't really drink alcohol unless I get invited to a party.

Coca-cola is disgusting. It's thick, syrupy, makes you feel sick to the stomach and dehydrates you.

Pepsi isn't much better. You feel a strange desire to consume more, but never can quite drink enough.

This is actually an interesting topic, I also wonder how many here claim not to taste any difference between different brands of Coke.

For me tho, it's always the "original" Coca Cola all day every day :3

Coke is a bit more ripe imo and has a different sweetness which suits me better :P
But yeah, there's a bunch out there who claim not to taste the difference (like my wife).

Regular Coca Cola is my favorite. But I don't really drink that much soda.

i love only Diet Coke... my whole life..

I love a can of coke, my buddy's parents always had some cold ones in their fridge we use to take, and I worked for coca-cola for 3 years it was very chill and gave lots of opportunities to grow within the company.

But I will say, now, it's probably my least favorite out of Pepsi n Dr Pepper now a days.

50seizedmy2fa - November 6, 2021, 9:58 am

Coke zero with rum, I find pepsi a little too sweet.
