Thread: [Instagram Financial Engagement Pod Group](#)

Expherence - *October 3, 2021, 2:57 pm*

Hey all on, HF!

As the title states.. looking to start an Instagram engagement pod group for obvious reasons.

Simple Rules:

Respect the time when the pods "drop" ("drop" is pod lingo for a predetermined time when users are allowed to share their content for likes or comments)

Don't use the chat to chat (this is purely business, no pleasantries allowed)

Most important of all, do not leech (where you reap the benefits of using a pod, but don't like or comment back)

Let me know down below if you're interested in joining. I only want consistent like-minded people in this group.. not someone who's going to quit their project in 1 week or less.

Let's grow together!

Hey I like the idea. How many members are currently part of the group?

None actually. Looking to grow a fresh high-quality new one w/ rules in line to keep it HQ.
