Thread: [\[\\$500/DAY\] THE CAPITAL INCOME FULL SYSTEM \[COURSE + GROUP\] STELLAR REVIEWS](#)

Dutch Fortune - October 3, 2021, 4:37 pm

[NOVEMBER 2023 ANNOUNCEMENTS]

We are very excited to finally bring this system to the general public.

Release pricing is temporarily and heavily discounted!

It is important to understand that this is much more than an "ebook" containing a single method. This is a full system, with a very highly detailed course containing several extremely lucrative and passive methods centered around the same general idea which we have been developing over the last several years, access to a private group with a number of beneficial resources, and much more.

(Oct 8, 2021 01:30 AM)radicalxfrosty Wrote: [\[CITE\]](#) I want to thank OP for giving me a vouch copy.

I just started the monetizing techniques and I have to say that both are written very easy, detailed and professional at the same time.

The E-book contains 3 different methods that cannot be saturated and everyone could do it the way he teaches you. It's a step- by step guide contained with all the things you need!

Both techniques do require a little bit of effort what could give you the opportunity to get a long steady passive income even after months / years of setting up.

OP also has a discord group with other people doing the same methods and with extra ways to get some money ;)

Beside of the upcoming features, you will also get a e-book about managing your money to live your future best life that can be really helpful for people with bad habits or with a wrong mindset.

Comparing to other e-books, I think this is really worth buying it and see it for yourself.?

(Apr 6, 2022 11:13 PM)duke007 Wrote: [\[CITE\]](#) I wanted to come here to give my full vouch for the product (I got the Platinum Package). Upon reading the e-book and understanding the methods, I was pleasantly surprised upon first read. The E-book contains methods that not only are very unsaturated, but the amazing support given allows you to maximize potential for what you are buying. Employing the methods of course require some time and effort, but those of you who are looking for passive income like I was know that in order to truly make passive income there is a level of dedication that's required to get there. I highly recommend this product to those of you who are looking to build a steady stream of passive income.

Here are some of my earnings after grinding the process for some time:

VOUCH COPIES ARE AVAILABLE GIVEN OUT!
[Must be UB3R+ or V3NDOR]

[The Importance of Passive Income]

It's simple: If you are trading your time for money, you are not placing yourself in a position to build wealth.

It is often said that while the poor and middle-class work for money, the rich put money to work for them. The truth is that you don't need to be rich to develop extraordinarily profitable autopilot income streams. All you need is a little bit of guidance and the willingness to work, and you can make money twenty four hours a day with zero maintenance work past setting up and scaling.

For the last four years, I have been a Digital Nomad. This means that I travel to other countries for extended periods of time and pay for my lifestyle with online income streams built and maintained from my laptop. I'm from the US, but I've lived everywhere from Bali to Madrid.

None of this would have been possible for me if I traded my time for money. I have placed myself in a position where I am generating revenue twenty-four hours a day. Even if I do decide to work a regular job, I will have several streams of income in addition to my salary.

Passive income has changed everything for me, and I'm excited to finally show others how they too can change their lives.

The Capital Income System provides you with everything you need to achieve this dream.

(As stated above, please reach out directly for live, screenshare proof of earnings.)

[What is the Capital Income System?]

This is not a low-quality and badly written "ebook" with old and saturated methods. This is a full, professional-grade system designed to:

- Build several tremendously profitable income streams which will continue to generate revenue long after you stop. This is done through the highly-detailed, beginner-friendly course, itself containing several lucrative methods.
- Provide you with access to our private, invitation-only community of ambitious individuals to work and network with

- Show you how to properly manage and invest the income gained from this system in order to automatically compound your earnings and achieve long-term financial goals
- Offer you additional, unrelated sources of income at no additional cost (Such as the private group's highly lucrative crypto and stock market trading signals)
- Guide you with a full support team motivated to help you succeed financially

[Capital Society Private Group]

Capital Society is a private group, with membership obtained strictly through invitation. Purchase of the top Capital Income package comes with your invite code.

The group is essential to your success with Capital Income as it provides:

- ==> Access to the live support team
- ==> Access to the constantly updated resource list for the methods
- ==> A close community of ambitious individuals who are working together for the common goal of building wealth
- ==> Additional Personal Finance Resources, guides, and tools
- ==> Additional income-generating resources unrelated to the course, such as high-accuracy cryptocurrency and stock trading signals, tutorials, and more

(Note: The trading signals are produced by highly reputed analysts whose performance data is available upon request)

[FAQ]

What is required to start this system?

One of the main benefits of this system is that it requires zero investment to start and can be done globally. Of course, investment is always helpful to scale things, however, I have formatted, personalized, and organized the methods within in order to create a system that can be started with NOTHING and scaled purely with its own PROFITS.

Blackhat or Whitehat?

All of the methods contained in this system are 100% LEGAL in most countries, including the USA, the majority of European countries, most Asian countries, and South America. There is NO mention of fraud, stealing, gambling, or anything like that.

Is this Malware, eWhoring, Fraud, Surveys, YouTube, Gambling, Ebay, Amazon, or any other saturated method?

No. This is not a random saturated method that doesn't work. This is the real deal!

How can I be paid out?

Payout is very flexible throughout the entire system. I have received PayPal, Bank Transfer, Cryptocurrency, and Cashapp payments, but there are many more available.

This is a recurring income. I am still receiving huge payments from stuff that I did a long time ago.

If this is working so well for you, why release it?

Two reasons. Firstly, I have built a very secure income stream with this system that will be very difficult for anybody to saturate at this point. I am very secure in this hidden industry, and I doubt that any amount of newcomers will be able to dislodge me.

Secondly, I am expanding my professional portfolio and am looking to offer high-end goods and services on this forum in the future. I will need credibility to do this. In order to achieve that credibility, I've decided to release this system to the general public and give people a taste of actual quality.

This is my review for the first ebook. This method is about getting clients in any niche locally. It gives information on where to get clients. The guide includes step by step instructions with screenshots on how to execute the process.

The second part includes how to prospect clients in the right way. It includes templates where you can modify with personal touch. An effective subject line is included in the process. This is not a get rich quick scheme and it requires manual work but I can definitely see the potential of this process.

The process also teaches how to outsource the cold calling process of potential clients.

The best part is, you are not going to do the reviews yourself. You can outsource this part and add a mark up value.

The 2nd ebook is about the adult industry.

It is about in a greyhat side because you are gaming the system. I've heard and seen some method using this affiliate program but not this specific one in the 2nd ebook.

It includes a step by step instructions on how to use a software that will do the work for you. It shows how to add the watermark URL so that your links will be visited.

This ebook isn't a get rich quick scheme. It requires manual work to make it happen. If you have some free time, and will to do the work, this is definitely for you. But if you are some kind of a lazy ass, this is not for you.

Worked with Capital Society group and made a lot of money with them last year and they've delivered another great product ?

After about a week from my setup, decided to withdraw my earnings today and this is what it came out to be:

Disclaimer: OP told me that this is a very good start and not everybody will make this on their first week, but you could easily make this much in the right conditions!

You get full access to the course and the (very) helpful community with your purchase.

Dutch Fortune is a beast, highly recommend!

My official review of the product.

I received a vouch copy for the Platinum system

Note that I am in NO WAY affiliated, or a friend of Dutch Fortune.

Vocabulary, Grammar & Interface :

It's got multiple PDF's and will take you a good amount of time to read but this is only because it is so detailed and comprehensive. The seller has included screenshots as well to aid you which is a delight.

There is no grammatical errors :)

Seller's responsiveness:

Contacted the seller through HackForums PM system and replied almost immediately. OP also

uses discord and is available almost all the time on discord and is really responsive with any of the doubts. Had purchased an earlier method from the seller so I knew he wouldn't disappoint!

Overall:

There are primarily 3 methods in the eBook provided -

#1 - It is not an entirely new concept but the seller has explained what to do and whom to contact for every single thing needed. He's also provided multiple sources for marketing as well.

#2 - This method is also not entirely new but I was so surprised to see the nuances he's added and changed to see how this method will for sure make you profitable. He's gone through each step extensively. Perfect for beginners and even people who have experience in this domain.

#3 - This was one of the methods I have used before and I've made money with. OP has provided exactly where to look and which website to use. It's almost like hand holding.

I would say this works for sure and you can earn at the very least \$500/week.

Pretty sure the OP would help you in case y'all run into any issues. (it's very tough to run into any since the method is so simple and the OP has provided screenshots and examples of literally everything).

Thank you and Good Luck With Sales OP.

Regards,
Hosmail

Good question, the answer is no. There are options to scale immediately, however I outline a specific plan to where scaling investment (if you choose to utilize it) should be sourced purely with revenues obtained from prior steps. I don't recommend that anybody make any kind of substantial investment outside of what they've already earned because it's not necessary here.

Very interested. How long would it take to set up until it becomes passive? And how much start up costs would you recommend? Thanks.

The setup can take a few hours to a day. No additional cost required to set it up.

BTB™ - January 28, 2022, 6:53 pm

OP was kind enough to give me a vouch copy. Band here are my thoughts regarding the same - First things first, you will have to put in some efforts and the money flow will start. Yes, the efforts are repetitive, so as such no rocket science is involved.

Secondly, there is no illegal activity involved. I hope I have a liberty to say, that actually there are couple of methods that OP is providing.

The method(s) are exactly as advertised and for the price OP is selling this at, I think its pretty affordable.

The guide includes step by step instructions with screenshots on how to execute the processes in both the methods.

Additionally, you would be added to a Discord channel that is filled with esteemed Monetizers.

You can get your investment back in first two days, if you put a little bit of effort in this. And No additional cost required to set the method up.

This is really a worth buy.

Cheers.

Hi there!

Hoping to buy within the month but does this require any KYC/ID verification of any sort?

Looking forward to your reply!

Merlyn - February 25, 2022, 6:23 am

Question: is it possible to make decent money(i.e at least \$1000/month) using only the 2nd/adult method while putting in let's say 4 hours of work per day? Or is the 1st method the main one?

From what I can infer from the reviews the 1st method involves reaching out to local businesses or something(hopefully I'm not talking out of my ass) and that's not something I'm willing to do atm.

Regardless, I'm one hair away from buying the platinum package, the reviews have been

impressive, both on the product and the seller's community. I'm very curious, and surprised more people haven't bought this.

edit: nvm, just purchased via paypal.

I wanted to come here to give my full vouch for the product (I got the Platinum Package). Upon reading the e-book and understanding the methods, I was pleasantly surprised upon first read. The E-book contains methods that not only are very unsaturated, but the amazing support given allows you to maximize potential for what you are buying. Employing the methods of course require some time and effort, but those of you who are looking for passive income like I was know that in order to truly make passive income there is a level of dedication that's required to get there. I highly recommend this product to those of you who are looking to build a steady stream of passive income.

Here are some of my earnings after grinding the process for some time:

I just bought the capital income system and this is my review ;)

First, I am a newbie here in HF and my first time buying a paid method. i usually find methods in the free section and I got a lot of them. lol

as a newbie plus living here in Asia, some methods I found here in HF doesn't work.

but with Capital Income System, it was a great surprise. This works here in ASIA without a problem.

The ebook itself is clearly written and easy to understand with a lot of pictures or screenshots so a newbie like me can easily understand.

The primary method is very unsaturated and I believed that it could give good money in just a short time. and best of all, without effort and can be done in less work. Setting it up is not gruesome or brain crashing at all for the guide in the ebook is clearly and well-written instructions on how to do it.

it can be done with no initial investment at all but can also invest a little amount to boost your income faster and bigger. and after that, it is all on autopilot... just let the money come :)

There are other extra bonus methods too included with it and so far, all of them are great and can generate more income. actually, this is just perfect, because while you wait for the money generated from the main method, you can give this a go and be active so as not to get lazy out there. hahaha,

I love all the methods provided. and I believed that it can bring me good fortune in a short time.

and about the community??? people or members are actively participating and helping each other so as to optimize your profits and make you avoid mistakes as a newbie.

the OP is super helpful and always answers every question I throw at him.

OVERALL... i give this a 10/10

I was skeptical at first but now, all my doubts are GONE!

Heylive98 - June 20, 2022, 10:25 pm

Just bought it! Really great e-book! Its worth it to buy, really well explained method, everybody can do it and really easy to set up. Also the communication with the seller is awesome

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

[FAQ]

What is required to start this system?

One of the main benefits of this system is that it requires zero investment to start and can be done globally. Of course, investment is always helpful to scale things, however, I have formatted, personalized, and organized the methods within in order to create a system that can be started with NOTHING and scaled purely with its own PROFITS.

Blackhat or Whitehat?

All of the methods contained in this system are 100% LEGAL in most countries, including the USA, the majority of European countries, most Asian countries, and South America. There is NO mention of fraud, stealing, gambling, or anything like that.

Is this Malware, eWhoring, Fraud, Surveys, YouTube, Gambling, Ebay, Amazon, or any other saturated method?

No. This is not a random saturated method that doesn't work. This is the real deal!

How can I be paid out?

Payout is very flexible throughout the entire system. I have received PayPal, Bank Transfer, Cryptocurrency, and Cashapp payments, but there are many more available.

This is a recurring income. I am still receiving huge payments from stuff that I did a long time ago.

If this is working so well for you, why release it?

Two reasons. Firstly, I have built a very secure income stream with this system that will be very difficult for anybody to saturate at this point. I am very secure in this hidden industry, and I doubt that any amount of newcomers will be able to dislodge me.

Secondly, I am expanding my professional portfolio and am looking to offer high-end goods and services on this forum in the future. I will need credibility to do this. In order to achieve that credibility, I've decided to release this system to the general public and give people a taste of actual quality.
