MYSTIC INVESTIGATIONS AND SKIP TRACING

Need someone found? Need their phone numbers, address, friends and family's information? Look no further!

We are a small, dedicated, and passionate team who love tracking people down, and finding every little bit of information we can.

We leave no stone unturned. We do full background checks, number verification from untraceable phones, social engineering, and crawl painfully through registries to find their entire history.

If no objective (such as just finding a phone number or address) then we supply a Maltego Casefile with everything we find. From online accounts to parents phone numbers and court records.

PRICING

\$100 for an investigation

- \$50 up front
- \$50 upon completion
- partial refunds available should our investigation turn up no results
- payment methods: Bitcoin, Ethereum, and Dogecoin

Time is the most valuable resource anyone has, and our investigations take up A LOT of time.

If VC means vouch copy, we do not have any openings at the moment. We have paid investigations ongoing currently. We may open up to a few VCs soon.

Price CAN be negotiable, depending on how much information you already have.

You're new here offering these kinds of services, it's probably a good idea to do a few VC's.

How do we know you will deliver actual info? I think \$50-\$100 is more than enough for a dox.

? good luck.

I engaged Mystic Investigations recently to do a deep dive into a person of interest. True to their prices, they charged \$50 upfront, \$50 afterward, which I paid in BTC.

Overall, I was extremely impressed. They displayed a level of professionalism and service that is extraordinarily rare anywhere these days, especially on the internet. They replied almost instantaneously, and their replies were coherent, courteous, competent, comprehensive, and in flawless native English. Corresponding with them was easy and a pleasure. They were also highly discreet and confidential, no (personally probing) questions asked. They began work immediately upon payment. They just seemed, for lack of a better word, professional. In terms of generally doing business, Mystic really set a high standard.

In terms of investigative ability, I was again impressed. They quickly found information that I was unable to find, and their research efforts were extremely thorough. I felt uncertain at a few points (my own fault), but they took the time to explain their methodology and reasoning to me, which were consistently strong and ultimately put my mind at ease.

Suffice to say, the next time I need investigative services, I know who I'll turn to.
