Yes, we do enable the ability to record on your account.

Is there any risks of the accounts being revoked? Just wondering.

If you violate any of google's terms yes, if not, you won't have to worry about that.

Yes, it's still available for sale. Feel free to contact me with all your questions.

Plan to use this for my school and to back up my computer's data per se I ever do fresh install windows. Afraid that my files would be gone since there are multiple research papers and design resources (working files etc). I know it does not breach Google's terms however, sometimes the account gets revoked due to how it is being attained. Had an experience like this before, just being more careful since it did cost me a lot in value terms. Sorry if I sound pushy and a little sus over a small thing.

Must have been a stolen account or an admin abusing services.

So does this mean \$20 Google Workspace forever? Or a yearly plan?

Currently, the first 5 purchases are lifetime subscriptions. I'm about to switch it to monthly after those 5 go

Definitely not mate, I can assure you that won't have any effect on this service ?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
