Thread: [UberEATS Discount Bot Get 75% \(Or More\) OFF EVERY ORDER \[100% AUTOPILOT\]](#)

milkyway98 - October 10, 2021, 9:49 am

Hello Hackforums,

I offer an unique UberEATS Discount Bot for only 25\$, for a one year subscription.

When you buy i'll send you the bot with a very detailed user manual on how to use my bot. There is a one time set up that will require you 30min max.

After this one time set up is done you only have to click 1 button and my bot will get you an account with huge discount in only +- 3 min.

The bot is based on an (I think) very publicly know method that I found out myself. (The method is whitehat)

The thing is if you execute the method manually, it can take up to 45-60 mins. before your UberEATS account is ready. I thought this was way to much work so I automated the process and now I decided to sell my program so I can make a little side money.

If you have any questions, feel free to contact me on discord: Pielie#5194 (I'm more active on Discord than HF)

Pricing:

1 year license for the bot + lifetime support -> \$25

I only except Cryptocurrency

Dog. - October 11, 2021, 2:46 am

The bot only seems to work in europe for now, I'm gonna try to fix this issue. If I fail i will refund everybody that is outside europe.

Is this the chop?

TB12 - October 12, 2021, 11:28 am

(Oct 12, 2021 10:47 AM)Nintendo 64 Wrote: [\[CITE\]](#) So it seems to be working perfectly fine for me but there are some prerequisites that are required.

To start off you need a 2Captcha account for Captcha solving.

The main one is the temp number generator you need like \$1.70 per phone verification.

Like I said this bot is very promising I'm sorry I didn't leave a review quick enough work and stuff so I didn't have time to successfully test it.

But honestly I vouch for this guy it seems like the bot works smooth like butter and gets the job done.

Thanks for the info! I'm going to wait to see if someone has a successful delivery with discount first to be safe

Louis Vuitton - October 12, 2021, 12:54 pm

siddy357 - October 13, 2021, 4:11 am

is the method limited to uber eats or you can expand to other food delivery apps too?

milkyway98 - October 13, 2021, 4:14 am

the bot only works for uber eats yes

Louis Vuitton - October 13, 2021, 12:04 pm

tombucket1 - December 10, 2021, 6:42 am

JuiceBoxCereal - December 10, 2021, 10:05 am

So for USA it's \$25 off every time?

What's the cost per account?

Do I need to run on a phone or it does it on the bot by itself?

BOB DAVIES 1 - December 11, 2021, 12:27 pm

Please can someone tell me if this is legit. UK purchase - thanks.

naahhhhhhh - January 10, 2022, 2:41 pm

JuiceBoxCereal - January 19, 2022, 6:16 pm

OP just disappeared. Haven't heard from him at all and I want to buy this.

Macintosh - March 9, 2022, 6:38 am

Does this still work ? OP just logged in recently I hope he's here

?Impossible - March 9, 2022, 5:10 pm

Pm'd you. Please get back to me about it :)

usenet - March 9, 2022, 5:43 pm

How/where does the bot run? PC, mobile, website???

Can I provide my own number to avoid paying for a temp number?

After I receive a account to use from the bot, all I need to do is log in, attach a payment card, update delivery address and order. Correct?

CryptoExchanger - March 9, 2022, 11:02 pm

If this still works I will purchase it.

milkyway98 - March 10, 2022, 5:14 am

Hi everyone, sadly the bot is currently not working anymore. Maybe in the future I will work on it but I haven't got the time because of my school work;
