Hey SrNova and welcome to hackforums sorry for all the rude posts in your thread.

I'm really happy to see you being a part of the discussion and the points you made in your post really resonated with me.

This coin seems like something that's really positive for cryptocurrency and the world at large. Some really game-changing moves it's nice to see someone finally put together a comprehensive thread to explain Equilibria to those of us that are unfamiliar with it.

I'm here to learn much like everyone else, in the spirit of learning I really hope you can answer this for me; How much did they pay you to post this thread?

So you are the one who paid him to make this thread? In all do respect all I see is copy pasted replies.

I really wanted to know because the title is literally all caps click-bait and then being under \$1 ? I can go find 400+ projects with the exact same movement and probably chart but instead we get this thread of a coin I have never heard of. I don't know what to even say at this point. Do you know what I mean? I guess I was just trying to be funny all in all but damn.

(CRYPTO PUMPING?!?! GONE SEXUAL +18 NOT CLICKBAIT?!?!?)

It just bothers me I suppose.???

I completely understand bud. I found it hilarious because op does not sound legit. I'm no pro in crypto at all.

LMAO that's too good :) I did not pay anyone the dollar vigilante called it for the coin of the month. He pumped ARRR from 30c to \$13.

Hey I've been looking at getting into Equilibria. My main concern is how much they paid you to write this thread?

SrNova - *October 12, 2021, 8:20 am*

Low quality thread, should have not made it.
