Thread: [Netflix, Crunchyroll, Spotify Upgrades to Personal Account](#)

Lifetime Upgrades!

Netflix - Personal Account upgraded to UHD - 4 Screen Plan \$25USD

Crunchyroll - Premium Plan (No Ads) \$4USD

Spotify - Premium Plan \$15USD

The prices may be high, but they have a good reason because we provide lifetime warranty on the upgrade so it's a one time cost.

Payments Accepted: BTC / ETH / LTC / BCH and Others.

FAQ:

How does the warranty work? I offer a lifetime warranty which means that if your account got downgraded, I will renew it for free until my method dies. Please keep in mind that "Lifetime" means the lifetime of the METHOD, not yours.

What's the duration of an upgrade? The duration of an upgrade is random. It can last like days or months. I cannot control that unfortunately.

Are you offering refunds? No refunds after purchase.

Does this mean that I'd have to ask you every time for an upgrade?
