Thread: [Interested in selling my Crew](#)

??? - October 12, 2021, 9:17 pm

Have been pretty inactive these past few weeks between school and my companies.
Think it would serve its purpose better in someone else's possession.
Feel free to drop or pm some offers.

Crew type: Syndicate.

skull - October 12, 2021, 10:02 pm

Syndicate is currently valued at 500k bytes.
Making it around \$500 give and take.

Good luck with sales.

EDIT: Bytes go for \$2.5-3.0/k now. Making it worth \$1250-\$1500 in bytes

Has the value of bytes gone down?
pretty sure bytes were a minimum of 1k/\$2

Ahh, I haven't exchanged bytes in a bit.
Yeah, so that makes it around \$1k for the crew.

Just letting people know so they have an idea how much to offer.

I would make an offer myself, but low on cash right now.

Yea Omni has increased the number of bytes required to create a crew.

So if 1k byte is anything near \$2, it would make the crew worth anything around \$1k.

Don't cheat yourself, unless you wanna make someone else a good deal.

But it really depends a lot on the byte price, cause I have seen a lot of different prices today.

Just because the price of a new crew is set at that price doesn't mean it will sell for that. A couple crews are for sale with little interest.

\$300 to \$350 is the "fair offer" range IMHO; what [Yuno](#) offered.

Lowest I've seen was \$275 (I bought mine for this), and highest listing I have seen is \$450 (carrot has his listed for this atm, but hasn't found a buyer afaik). I have seen offers for as low as \$250, but I have not personally seen anyone accept an offer that low yet.

Also 10k bytes fee to transfer crews; 500 bytes for crew userbar change; 500 bytes for crew name changes. Omniscient does not need to be involved; Crew owners can transfer the crew. Note that the crew owner has to have to the 10k bytes in the crew's vault to transfer the ownership.

Spoiler ([Click to View](#))

For Cartels, they're more in that ~\$750 range if I am not mistaken.

Difference is that cartels can have double the amount of users.

Hopefully that answers all your questions.
