Thread: [What is the best runtime and scantime FUD crypter?](#)

HelixCopter - *October 16, 2021, 1:13 am*

I'm looking for a crypter that will be undetected both runtime and scantime and will be alive for about 1-2 weeks (or more if it is possible). What do you think is the best crypter right now?

Roda-Modder - *October 16, 2021, 9:13 pm*

Vbs sin Dudas

FuckCrypt.

.....

I would have to say <https://hackforums.net/showthread.php?tid=6052714> , the only downfall is the wait but it is worth going with since it has very long runtime and scantime fud
