I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Its stable for long time with no anticheat detection, users are happy, if you banned more then 2 times then its hwid ban, in that case i recommend using spoofer and clean traces (fresh windows is best way to go and then spoofing), i also provide separate spoofers in my shop

Never used a spoofer but reset my HWID so I'll do both when I purchase this cheat. Thank you
