Even though the thread art states that I'm a student, I'm not anymore. Graduated as M.Sc.Eng in computer science (civil engineer). A lot of experience with personal projects and 2 years of industry experience as a software engineer and architect for cloud-native applications.

Currently only taking BTC!

Terms Of Agreement, which you accept when working with me: If you have multiple (small) projects/assignments: I have to be paid for each part of the whole, after completion of one part.

What you're using the software for, is your issue. I do not take part in action nor am I responsible for the consequences.

If I'm doing a school assignment then I am NOT responsible for trouble you might get with it (plagiarism and such).

No malicious use/ grey/blackhat (account creators, bruteforcers, crypters, ...).

I can cancel any project while working on it. In that case, you will get a full refund.

The TOS can change over time. You will not be personally noticed but you will still agree with them if you decide to take use of my services.
