This method is apparently "private" when it shouldn't be [>_>]

Cheapest method to get RS membership (assuming you have crypto)
Also 2 other methods that use debit cards

[Video: <https://www.youtube.com/watch?v=P-nv13yMcMg>]

NoSuchAgency - November 3, 2021, 11:05 pm

I can vouch for the methods in the video, I use the main source whenever I need membership.

Does anyone know where they source the memberships for that cheap in the first place?

Use VPN's & set their location to Venezuela or some cheap ass country & buy bulk codes on websites. Like using a VPN to get cheaper Netflix subscription etc. Some websites require proof of citizenship though so you need to find one that doesn't.

The last website, Tribo Games.

Are you asking why it is that cheap? Lots of services are cheaper in some countries than others. These are Brazil codes but they work worldwide.

Kyro477 - November 15, 2021, 5:44 pm

I heard this to where and when do they sell or go on discount someone pm me just curious.

Premier Club Membership costs £49.99/€64.99/\$69.99

Not really. If you only play OSRS, then it might be a little steep.

It's 12 month membership for two games with a ton on content for each and with RuneScape rewards and VIP benefits.

\$69.99 for 12 months = ~\$5.83 per month. It's a cost of 1 homemade / fast food meal per month. ?

Additionally, you could play both OSRS and RuneScape on mobile. So the sky is the limit when it comes to accumulating active game time.

Im opposite actually, I only play rs3. Was trying to figure out if the premier vault (only thing that interests me really) was worth the upfront cost of \$70 if I could get years membership at tribo for probably half that.

Yes Tribo is cheapest. I know cheaper methods too but I presume they are carding so I won't mention them.

tribo is the best one to use anyway. It's not hard to get crypto these days especially with things like Cashapp these days. If you really want to use a CC/Paypal then you can find people on these forums selling Runescape membership as well. They buy for Tribo and resell here.

Membership prices are lower in certain countries, most sellers on Sythe/other Sites buy through Mexico and sell at a slight margin. The best "bang for your buck" are twitch prime events tho, in which you can buy a week of membership for around 1.3M.

Another guy here said something about supporting Jagex but with these methods the people are literally buying from Jagex directly, same concept as scalping things to flip on ebay for more cash.

Tweak Box App - December 23, 2021, 6:24 pm

I can personally vouch for Tribogames. It is legit and very easy to use. Back when I first discovered it you had to manually send over Bitcoin Cash. Their customer support was amazing and explained how to buy from them. I made a Coinbase account. Now you're able to automate the buying process and use Coinbase to buy your membership right away. You just have to wait for the code.

Sometimes it takes up to 30 minutes. Absolutely worth it though with the cheap prices! Every code has always worked for me and I can reply on their website as a go to!

Sounds like you did something wrong then. Tribo doesn't actually handle the payment. Coinbase handles the payment processing, so your issue is with them.

Why would Coinbase in a million years ever associate themselves with Tribo and send you there for any purpose ever? They wouldn't, so you're not making any sense. 2 post where you explain your "scenario" in ways that don't make sense.

In your first post you said Tribo scammed you by charging you twice, but Coinbase handles the payments. Then you said Coinbase sent you to Tribo? What? You're just rambling as far as I can tell.

They did not specifically state 'go back to Tribo' - they advised to go back to the merchant itself (in this case was Tribo).

Bumping because still a very viable method that should be known more

Stanley - February 20, 2022, 2:41 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
