oRequiem - October 22, 2021, 6:51 pm

It's been God knows how many years since I've drank Sparkling Water, anyone here still drink it?

blackrose_x0x0 - October 22, 2021, 6:55 pm

Yep and I love it. I drink sparkling water a few times a week. I've been enjoying the Bubly brand lately called Bubly Bounce. It has a little bit of caffeine in it like 35mg or something. Good stuff for when I want water and a small little boost. Can't go wrong.

I'll give that brand a try, I wasn't too much into it years ago.

Odd thing to be proud about, I love the confidence ?

Maxorg - October 22, 2021, 7:01 pm

I don't think I've ever drunk any SParkling water. I know a lot of people do though.

fenompls - October 22, 2021, 7:01 pm

Is it good for a hangover? I don't really drink it at all...like ever.

TheArchitect - October 22, 2021, 7:36 pm

Sparkling Water? Never heard about that. JK

But really now if I drink 1L of 'normal water' in a month it's a miracle.

Hmm topo chico is pretty good but got pretty pricey lately. Costco has a good deal on it.

Flavor wise bubbly makes so pretty good flavors and idk if you have targets near by. But they have a brand that makes like raspberry hibiscus that's really good.

Hate the taste of it. I much prefer Fanta all day ?

Chief - October 22, 2021, 8:54 pm

Strawberry sparkling water is definitely the move.

Nostre - October 22, 2021, 9:02 pm

I use sparkling water as a substitute for soda. Mix it with a little Mio flavor and it taste just like it.

shakur123 - October 22, 2021, 9:07 pm

Sure with tequia its the best fit XD

Juoku - October 22, 2021, 9:19 pm

I love sparkling water lol, I feel old admitting that.
It's basically healthy soda

eXceptional - October 22, 2021, 9:36 pm

4-5 years for me now I haven't been drinking sparkling water now. I believe the production is low too.

If that's the only thing I see and I don't want a soda then fuck it man

Michael - October 23, 2021, 12:59 am

I've never actually drank it.
Don't understand how people like it to be honest.

guardian - October 23, 2021, 2:26 am

I do. Not too often though, used to drink it a lot more, when I was living with my parents, because my dad would always buy a whole lot of it.

i drink a lot of sparkling water ,in the summertime i mix it with apple juice,like 1/4 apple juice and 3/4 water

bevc - October 23, 2021, 2:37 am

My mum used to drink it many years ago, she was an alcoholic and she'd probably heard it was good for hangovers or something.

I've never understood it, it's like proper water, but worse. I can drink it if I have to, but my wife hates it, we have accidentally bought it a couple of times when we've been in a country where we don't speak the language and you can't tell from the bottle.

In?sane? - October 23, 2021, 5:05 am

For sure, usually have some in my fridge.

Kaiba Corp - October 23, 2021, 5:55 am

I do prefer stil. But don't underestimate the power of a glass of fizzy after a heavy meal.

I Stil do occasionally but mostly if I had something very heavy to eat (oily, fatty stuff)

Lyrlei - October 23, 2021, 6:26 am

My dad drinks it a lot with some juices he makes, it's actually quite good, and the water itself is not bad aswell.

Dorrance - October 23, 2021, 6:27 am

Ew sparkling water taste like ya mouth burning away like acid

Snowwy - October 23, 2021, 6:54 am

I sometimes drink it. Good to change it up. Just plain though. No flavouring.

AuntEsther - January 1, 2022, 5:40 pm

Sometimes. I always liked that LaCroix Coconut. I also like this brand called Bubbly. I'll try it out from time to time if I see a flavor combination that interests me, but overall it isn't something I'd drink on a regular. I definitely don't like the hard varieties (with alcohol) they've been coming out with.

Yuno - February 16, 2022, 11:27 am

I drink soda water with my vodka, other than that no.

Polymath - February 16, 2022, 5:05 pm

Good quality sparking water won't taste like chemicals and will feel less bubbly and more sparkley if that makes sense. I have drunk many different brands of sparkling water, and they tend to be best drunk when cool and straight away after being opened. With other fizzy drinks like fanta you can keep it in the fridge and if the fizz does mostly go away it still tastes fine. However, if the fizz goes away even slightly with sparking water it will taste horrible.

I never really was a big sparkling water fan and I can't even remember the last time I even had any. I think it has some practical uses in certain scenarios to maybe feel better etc.. but other than that I don't personally find it enjoyable.

Yea I don't even remember how it tastes either. If I recall it pretty much has zero flavor yet it's carbonated. I probably don't remember what it tastes like because it's not something I wanted to remember lol

False King - June 8, 2022, 4:11 pm

I still don't get why anyone would still drink carbonated normal water. I'd rather carbonate a years worth of cum and drink it.

That's the same thing, I hate sparkling water, even the flavored ones. STAY AWAY FROM IT
Also it's called "tonic" in alcoholic drinks.

Depends, strawberry works wonders on martinis and vodka cocktails however for whisky you'd prefer club soda to sparkling water for obvious reasons. Pretty good mixer a Gin Rickey too.

Most of the time its an alternative to drinking pop, I remember when I switched over to sparkling water cause of the carbonation. Now I don't drink pop as much, nor sparkling water.

As it was stated I think a good amount of people temporarily use sparkling water to try and curb their soda drinking. If they were drinking too much soda they then still look for something with carbonation yet isn't as bad as soda I think.

No, you definitely are not the only one who doesn't drink soda at all. I personally never had an issue with drinking too much soda but I don't really ever drink soda anymore. I mainly just drink water all the time.

For some, they turn to soda for the caffeine if they aren't big into drinking coffee. Then before they know it they are drinking way too much soda and that's just not good for anybody. The shit they put in sodas is not good at all.

Convenient to crack open a can of pop, rather than wait for a glass of water to fill up. Though mainly its because they add a lot of stuff to it which gets you hooked on to it. Mainly caffeine was the main reason as I'm not much of a coffee guy.

That's weird I have personally never seen anyone mix lemon juice and soda together. I can't even imagine how that tastes to be honest. Maybe they think by drinking something healthy while drinking something shitty makes it not as bad lol.

Here it is common though, so not entirely sure. Now i wonder if the soda you are talking about and what i am talking about might be different. So here Soda means just carbonated water. Aka Gas and Water. But i think you mentioned the soda you get there has caffeine in it?
