Thread: [Bebop Live Action](#)

I haven't actually seen Bebop, and I know that's a mortal sin, but the live action actually looks fire.

Lmao. I watched this and was like "Wait, is that the guy from Harold & Kumar?"

I think I might give it a watch, seems like they put in effort into it. I haven't watched the anime either so you're not alone. ?

Harold and Kumar is as low as it gets. All my homies hate live actions.

Was hyped now I'm pissed.

Might just watch to see how cringe it possibly could be

Ziggy Pøp - November 30, 2021, 1:42 pm

Don't bother. I watched all of it and they disrespected most if not all the characters. They're making a season 2 supposedly.

johnwickisback - March 19, 2022, 4:32 pm

Season 2 is avorted ! Hopefully they stop this carnage of one of the best anime ever

I-I - March 19, 2022, 5:18 pm

It was terrible. My father liked it and asked me if I ever seen it before, I just laughed. I told him I used to watch it as a kid and that the "original" is actually a cartoon (easier than trying to explain what anime is to him)

One thing I liked about the live action was they stuck to the og anime story.
