Thread: [EWHORING WEB DESING SERVICE - AUTOMATIZE YOUR PACK - FINAL SOLUTION](#)

duepi - October 26, 2021, 9:17 am

Payment needs to be done upfront.

We accept crypto only for this service.

If you are trusted enough, we can arrange a 50% upfront.

When the work is finished, you check that all is fine,

you can ask for edits and when all is ok,

you pay the other 50% and I will give you the site.

Hosting and domain are included into the original price of each package. If needed you can extend the duration of both.

You will get for free one month of hosting and a standard domain of your choice for one year.

Sample site as reference

with the Gold package, can i use my current real paypal account for setup? can you mask it so that it doesnt reveal my name, be protected from bans, etc?

do i still need to have snapchat or other profiles for chatting/convince people to buy from me or i can just send traffic to my website and people buy from me directly on the website?
