I think I will have to look into this as well at some point! Just drop \$50 - \$100 and see what happens, but it will be in the next crash though.

Frukt - October 29, 2021, 4:42 pm

The FOMO is getting to me too hard.

Damn, maybe I should invest. Only on rank 2700 on CMC so it has huge upside potential.

EDIT:

Fomo got to me, \$1k deep now. Wishing for the best

Feels like playing Bustabit. Do you get out when it's 2x, 5x, 20x? More maybe?

Just don't see this is as anything more than that. Good luck to those playing the game.

Kaiba Corp - October 29, 2021, 10:34 pm

I have to agree... Sh!t coins investing feels like...

Putting overpriced fuel in your car.

It's dumb yes, frustrating yes, possibly TOO expensive, but you have to and it'll get you to destination.

popZmoke - October 30, 2021, 6:14 pm

Tbh, I just found a super shitcoin and its ranked 100th @coingecko. It's even listed on Kucoin. Going to do a group buy of 5k (for my irl friends and myself) lmao. Coin is named Dogelon Mars (ELON). Why the fuck is this coin even listed on kucoin??

When it lists on binance it will go to the moon lol been in this coin for a while and it's eaten two zeros already

At this point you have a better chance of investing in a shitcoin and 100xing your money than you do getting a 7% return on an Index fund so why not?

Or maybe I like playing the Casino too much...
