Zero - October 29, 2021, 12:16 am

Pink LSZ is a family and I think it's about time we grew a little.

Tell us who you are.

oRequiem - October 29, 2021, 12:39 am

Hello, I go by oRequiem or Sleepy.

I'm a Streamer/Content Creator.

I've been playing video games since I was 3-4 years old. I've always had an interest in video games and content creation when I grew older.

Content Creation on YouTube pulled me into Graphic Design and now I have been Designing for 11 years now. During that time is when I got into Private Investigation because it has always amazed me on how people got certain information from just sitting at their computer.

It's nothing too exciting, but I'm me.

Maxorg - October 29, 2021, 1:34 am

It's great to see that we're taking in new family members.

This family has been an amazing experience from the beginning. I've met so many amazing persons, grew strong bonds, learned a lot of new things, and I can always count on them to make my day.

Goodluck and thank you to everyone that is interested in joining our family ?

Vouch for pink LSZ they have a really good minecraft server

618C - October 29, 2021, 4:05 am

i have been lobbying for a while in convo to join Pink, (ask Nach lol) but i have never had any success.

taking my chances to join this group, cant say im always super active but its because i have a busy life.

at the age of 32 many other things fill up your days but i tend to make the most of it everyday on HF.

mostly active in convo, but also on discord during the day (eu times).

im working as a security professional for a big company, and i have a dog.

Maadcat - October 29, 2021, 8:42 am

Hi,

I'm a little cat, at the age of 10, just before internet come my father had an Apple computer. As they was no game (or few...), I was "playing" with terminal, creating files, move, delete... I bought "unix for dummies" but I was very young and understand 1% of what I was reading.

Few years after, internet come and my friend start playing online. I was jealous because in Apple computer we can't play before. So I try to reverse engineering .exe file. Of course I failed but Iv learned a lot of things and start be curious about hacking.

IRL i start learning to be professional ballet dancer (as my parent) but I was very bad... I was better at video games (but very bad since I'm older ahah)

Now i'm entrepreneur since 13 years. I decide to validate my knowledge with pentesting official certification, working on that, and now... I'm here !

I don't know if it's the right place to present myself, but as I had pink hair few years ago, I'm naturally attract to that pink community !

Biggy - October 29, 2021, 9:01 am

Hello there.

I'm Biggy and I lead a pretty plain lifestyle. Work, gym, sleep and repeat.

Been more active on HF recently these past few months and wouldn't mind being a group with some chill people that I pretty much already know and wouldn't mind getting closer with.

That's it. :)

Pink LSZ is a group with really positive people in it. We care about each other, and we have an awesome Minecraft server (which I'll play more when I have time!). If you're looking to meet cool

people and work together on future projects, Pink LSZ might just be the group for you.

guardian - October 29, 2021, 12:11 pm

My name is guardian. I first joined HF in about 2014/15, have been gone for a while, and came back with this account like a year ago.

I am into Cyber Security. Actually HF is what got me into that area. I wanted to hack an IG account and thus looked for some hacker that could help me. After a short while I forgot about the account and got more and more into Cyber Sec. I learned how to use Linux, different hacking tools, lots of theoretical stuff revolving around topics like networking, attacks, operating systems and more. In addition to that I also got into programming. Started out with Python, then moved on to languages like C, C++, C#, PHP and so on. Server stuff is also something I am really enthusiastic about, especially Linux servers. I used to do server hardening for fun back in the day,s, even though I had nothing important on the server, just really enjoy doing it.

Other than that I am really into sports. I want to start with MMA soon. As of right now, I am mainly doing body weight exercises and a bit of cardio.

I am super glad you decided to open up your recruitment again. Hoping to be accepted. Thanks for taking your time to review my application.

Satoru Gojo - October 29, 2021, 6:04 pm

I first joined HF back when I was a freshman in high school but now I'm a senior in university studying scientific computing mostly and planning to get a masters in CS with an AI specialization. I'm very interested in high performance computing with MPI and CUDA and would be happy to meet anyone with similar interests or experience.

Other than that I mostly just smoke weed, watch shit with my roommates, and play some Valorant. I'm a big fan of movies and anime and always trying to find new stuff to watch. I haven't really been active on HF in a while now but I want to be active again and have some friends on here to hang out with.

Pink LSZ is by far the best group out there, i never experienced this kind of family and community enviroment, you find good deals with the members, a bunch of helping people, fun chat, minecraft server and even a discord server with meme section that cracks me up XD.

I hope some new members can join and be a part of this.

NurSpec - November 6, 2021, 12:35 am

Hello,

My name is NurSpec. I've been around HackForums since 2014, however took a few years away from the site. I've recently returned and begun making new friends and diving back into the awesome community. I'm looking to join a group once again and become a family with new people. I haven't been in groups since way back when I was in Torque and Writ3rs as a Wiki member. I've contributed a fair amount to HF in my Writ3rs work and donations, which I'm hoping to begin doing again. I love gaming (Valorant, League, FIFA, CS:GO, Rocket League and a few others), as well as cars. I'm currently diving into anime for the first time, starting with death note.

All in all, I think you'd love to have me in your family. I'll remain active in the subforum, contribute as much as possible and engage in discussion and events etc. Thanks for hearing me out.

Edge - November 6, 2021, 2:59 pm

Hey! I'm Edge (renamed from EdgeOfDeath). I've been on the forum since 2013 but went MIA for a hot minute. I've recently come back and I'm loving talking to everyone. I'm interested in gaming, coding, and graphic design. I am horrendously addicted to league. I'm looking to join your group because all of the posts from members here are super welcoming and make it seem like this is a great group to join. I look forward to hearing from you (:

Hello my name is Telstra, I am a friendly dude who likes dancing in the rain and dinner by candlelight. I'm a big gamer in my spare time, I trade crypto and Australian stocks and have a keen eye for finance. I plan to retire by 35 then do finance as a passion job.

I can usually be found sitting in discord or hanging out with my wife or fishing. Chill dude, occasionally sarcastic tho.

skull - November 6, 2021, 11:45 pm

I'm a 30 year old software developer and security analyst located in Denmark.

I recently bought a big farm house, where I live with my trans-man, my son and my 3 horses, I love the countryside, the silence and the hard work that comes with it.

Yeah, you heard right, I am a man, married to a trans-man (former woman), there is no shame in that.

I am mainly on HF to get a network of mind like people and to make new friends, I have already made a lot of friends here.

I was originally a user from '08, but lost my account and only recently returned.

Currently I am working all kind of fun projects and integrations with HF, like some of you may have played the HF Poker game that I made, I still have many features and improvements to do before a final launch, as long as many projects to work in after that.

That's it about me, hit me up if you want to chat, and no hard feelings if my application here does not go for the pink family.

Hello, I am known as Smexy and I like to fully complete singleplayer games. (100 percent) And I will not stop until I achieve it.

I've recently finished Saints row 1&2, and I'm starting the third tomorrow.

I'm mostly active in the convo, because I'd like to avoid LQ posting by replying to threads I don't have any knowledge about.

The Minecraft server sounds really interesting, some users in Pink LSZ know I am only good at building in Minecraft.

My main goal in life is to be positive, I think that stimulating positive thoughts is a good thing.

I have dark humor but that doesn't stop me from being positive.

Yes, I am bad at typing applications as you can see. :)

Thanks in advance if I could be part of the family.

Mix - December 5, 2021, 5:43 am

Hi. I'm Mix,

Do you want to know who I am? Well, Have I got a story for you?

I once was a young guy on the internet looking for ways to make money for making graphics for people, I hunted around the internet for days to find people who were after the work I could do. I never found that place sadly. But what I did find was Hack Forums, I found it because of the graphics section in 2014. The section was popping at the time and people were very active around the section and I even found myself learning new skills for my passion at the time from the section. So at the end of that, I then had learned skills from others and thought well I might as well share how I do my styles within graphics design for everyone. I then became known as a rookie graphics

designer on site for a little while but I found that I was very late to the section and sadly didn't make it far. I was too late. Later that year I left HF and didn't return till late 2017 to become heavily involved in a lot of groups and work on ways to make a bold statement with the name of the wolfpack group. It worked for a while as it was a very large known group and I also made my way into a few other groups leading them to make them more successful and I had made a good name for myself at the time. By 2019 I was known by most group owners and some liked me and others didn't. I even made a name for myself to somehow get into infamous at the time. It was a good time. I now am not so active around the group section but I do keep up to date with it all as I make sure the groups are always mentioned within the HF news. I should also mention I still don't know how I got myself into the Hf writers team, but hey I can't be that bad and whatever I do.

To sum everything up as a TLDR for those who don't like to read long posts. Hi, I am Mix, I am a mad man with groups I am currently a HF writer and I work on the news and the wiki. I have dabbled into a lot of things here at HF and if you don't know me yet then you are more than welcome to get to know me.

Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

I'm a graphic designer and generally dabble in web development as well. Currently enlisted in the United States Marine Corps, fairly active within the forums, and I'm an avid gamer. Favorite games being: (Valorant, R6 and Escape from Tarkov). Will probably hop on the PinkCraft server shortly if it's still up as well. Looking to be a part of a group here to socialize a little more and get to know more users off the forum. Will be more than glad to participate in any group activities and such.

Very respectfully,

Unholy

I am a graduate student in international political economy with an emphasis in shadow markets,

black markets etc. - in short micro-economies. I can become a member that highlights important socio-political events which impact the global financial trade and start discussions of all sorts of matters. All of the members of this group have been pretty fantastic to myself and I get along with a lot of them.

I personally believe I can bring a different perspective to the group, especially become the Pink LSZ Sommelier.

Cheers.
