Thread: [What are some strange beliefs that some people have?](#)

Be careful with this one, because someone may end up labeling one of your beliefs as strange. Just be ready not to take any answers too personally.

Have you ever heard of someone talking about some crazy COVID conspiracy?

Ever encountered a stupid person who believes something true is actually entirely untrue?

Let's hear about it!

My wife is an Esthetician, she works with this native girl who is a bit on the older side around 50 years. She refuses to wear a mask, she'll go to the mall and walk around the mall without one on and when security tells her to put one on she ignores them (or puts it on, takes it off when out of sight). This crazy old lady actually went into depth with my wife about how there's planes flying around waiting to take unvaccinated people into camps. She literally freaks out at the sound of a plane and goes running out of the salon to watch it go by, she's also said she has a "go bag" ready incase she ever needs to flee.
