You must be broke by now. How do you afford that?

Sayid - October 31, 2021, 10:09 pm

Pretty stupid gimmick, but maybe I just don't like trendy traditions, if you wanna stop beating your meat, get some self-control and stop. What happens after the month of November? Do you go back to your old ways till next year? Beating your meat isn't even a big deal as long as you don't NEED to do it every day, could just be me, but I find myself being kept busy with so much shit to do throughout the day, I rarely think about it, I'd say a larger issue is porn and its desensitization of sex, and people being dopamine addicts.

I didn't realize that it also includes sex, and is really No Nut, I figured it was similar to the goal of NoFap

I don't know why, but the word "official" here made me crack up. Is there a presidential

proclamation? "I hereby decree that not one drop of nut milk shall be spilled from this day forth, until December is upon us and the night's draw in"?

Porn can be a problem, but there's nothing wrong with sex or jerking off, so long as it isn't compulsive (indeed, for men, it's healthy). That said, if you have a gf/wife, denying her some nookie every now and again can add spice to a relationship, women appreciate that sort of intrigue - saying "Ok, no sex for a month", and she'll probably want to start discussing rules and such, which builds anticipation etc (or she might just shrug and say "Great, pass the Doritos").

Hahaha! China is a republic country; not a nazi country.

I was being serious, though. I cannot believe how many people choose not to read a healthy set of ideas that they promote and stand for, but fail to realize that the ideas are Nazi ideas brought to life.

25 of them. America has sustained 24 until the 1990s. 23/25 is reasonable. Racism is legally banished, but proactively encouraged in many governmentally controlled sectors that affect millions of people.

Austin, TX recently closed down every school in a particular area. To mask this: They discussed the insane and absurd idea of spending a billion dollars on a subway system that nobody wants nor uses and want to place it in the worst place in the city.

Which draws more attention? A "minority" based off of an uncontrolled genetic attribute or a subway system...? The Nazi's subway, of course! I mean American subway. Darn Jews.

"After no November comes dead dick December, this month of agonizing pain or joy consists of beating your meat the amount the date says , therefore if it were December 7th you'd beat your meat 7 times a day and if you make it to December 31st which means you beat your meat 31 times in a day your literally a "G" and probably dead inside but good luck and happy holidays , Christmas should be fun"
