Thread: [if 2 mind readers are reading each other minds, whose mind are they reading?](#)

Mr.Cat - November 1, 2021, 11:14 am

if 2 mind readers are reading each others mind, whose mind are they reading? ??

fenompls - November 1, 2021, 12:41 pm

I would only assume each others. Than they come to the self-realization that they are both mind-readers.

False King - November 1, 2021, 1:05 pm

I guess you would get an infinite loop, and both brains will stop until they're turned off and on again.

Damn, you beat me to it!

Note to mind readers: insert loop counter with exit condition.

What is the answer, Mr Cat? cause I will say they are reading both minds.

i think the infinite loop one is a good answer. This is how we break the matrix ?

Damn I need to go back to school ...jezzz

Monero-chan - November 4, 2021, 12:09 pm

I would assume both people are reading the other persons mind instead of their own.

isai - November 4, 2021, 2:04 pm

Then you are reading the other persons mind or it's a loop forever

XYLA - November 4, 2021, 2:19 pm

mind reader 1 would be reading what mind reader 2 is reading in mind reader 1 and vice versa
