Thread: [Proton, Loan, Metal \(XPR, LEND, MTL\) - First Blockchain Bank, Frictionless, De-Fi](#)

Almonds - November 2, 2021, 8:38 am

I first read about Proton on [Hack Forums](#) in early September. I began doing some research, and downloaded the Proton wallet for my phone. I bought some Proton from Kucoin and sent them to my wallet to begin short staking for a modest 4-5% APY, compounded daily. I followed some socials, and began diving deeper into the Proton ecosystem. I began picking up some NFTs on Proton Mint, their NFT service using XUSDC making the purchasing process fee-less. From there I read up about the up and coming development they have intended for their LEND token (LOAN) that is scheduled to release in November. I believe their loan token can be a direct competitor to popular defi exchanges like AAVE, Uniswap, etc. The Proton Blockchain being frictionless is likely to make waves, as did LRC Loopring did recently. I bought 1M LEND Token, around \$800 at the time, by using the proton wallet and alcor exchange. It worked beautifully, I was impressed with the overall function and use of the proton wallet app android IOS.

In the month of November, they are rolling out Proton Wallet 2.0 with a fiat ramp on the Proton wallet. Marketing is beginning, a new road map is coming. Potential partnerships with metaverse projects using proton.

They currently have a lot of things in the works, but things that have the potential to make Proton a big name in the cryptocurrency space. With that being said, please do your own research!

I wanted to put some information here to inspire fellow HF users to check out this project before it moons! ?

Metal (MTL)

Proton (XPR)

LEND (LOAN)

Metal (MTL)

Proton (XPR)

LEND (LOAN)

So I should buy MTL, XPR, and LOAN?

Metal (MTL)

Proton (XPR)

LEND (LOAN)

LOL Why the token abbreviation says XRP instead of XPR in that image??

Stanley - November 6, 2021, 8:46 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I believe Proton will do very well this month and into next month. 10 cents is coming!

Zuse - November 11, 2021, 12:13 am

I've been looking to actually get into this coin, I'll probably be getting in this weekend.

DekoBegginer - November 11, 2021, 12:58 am

I have tried find anything that would pump this coin (new and stuff) but I failed at it?

Do we have some news for proton in the upcoming weeks?

Almonds - November 29, 2021, 3:35 pm

Looking to come back to recent highs of 5 cents soon!
