I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Dear customers,

We are taking your feedbacks very seriously.

Thanks to your involvement, we are improving Swire everyday. Getting closer to the best VPS/RDP provider out there.

With that in mind, we will release a new feature every first Saturday of the month for the next months to come. Starting today !

As for today, you can now order a new VPS or RDP with one or two additional gigabits of RAM.

Come check it out on our website :For our VPS : [Swire's VPS](#)

For our RDP : [Swire's RDP](#)

If you have any other idea on how to improve our service, please don't hesitate to reach to us either on telegram (t.me/swire_support) or directly by creating a ticket.

Swire Team.

V2 is OUT !

Dear customer,
We are very happy to inform you that V2 of Swire is out !

This new version updates both the website and the panel.
It features a brand new design as well as big changes in the server control panel.

There is a known issue where your server hostname displayed in the panel will be same as the one you choose when buying the server. This issue will be fixed as soon as you change your server hostname from the new version.

If you have any issue, please contact us and we will fix it as soon as possible.
Also if you want to use the old version of the website, you still can using this address : old.swire.cx

This update will allow us to more easily add new features to website, and we intent to do just that continuously !

So if you have any suggestion please tell us directly by contacting our support on telegram :

[Support Telegram](#)

Also if you want ta have access to regular change-logs, please join our telegram news channel :

[News Telegram](#)

We are infinitely thankful to anyone that supported us during this crazy year, by either buying a server on our service or by giving us feedback.

As a reward for your patience, and to celebrate this new update, we are offering you 30% off any purchase you can make on our website for a week with this coupon : 2.0ISOUT

Adding robots.txt and sitemap.xml files to enhance our SEO.

We will keep you updated as soon as updates roll out on both our [Telegram](#) and this thread.

Sincerely,
Swire Team.

Dear customers,

This week's update introduce 2FA on Swire.

In order to activate it, please follow instructions on <https://swire.cx/dashboard/settings>

After importing your 2FA key, please test it before closing your navigator.

If for some reason you loose your 2FA key, we will not provide a way to get your account back for obvious security reason, so keep it secure.

We also now have an account on Threema, a completely anonymous messaging app based in Switzerland. You can contact our support there via : <https://threema.id/4EZE8R8M>

Change Log :

- Optional 2FA.
- Discord webhook notifications for invoice status changes, server deployment, new message and payment reminder.
- New way of contacting our support team on Threema : <https://threema.id/4EZE8R8M>
- Received crypto amount is now displayed on the payment page, we also have now a 1% tolerance for the invoice to be completed.

swire - December 13, 2022, 3:02 am

Dear customer,

We are sorry for not releasing an update last week but we were working hard on this week's update.

We are very proud to announce that starting from today you have an account balance !

This balance can be used for both automatically renewing your servers when they arrive at the end of their subscription or buying and renewing manually servers.

By adding money to your balance you will be granted 10% extra euros instantly, to do that please visit this page : <https://swire.cx/dashboard/balance>

In addition we have added a telegram bot that you can use to get your notifications, you can enable it in your account settings : <https://swire.cx/dashboard/settings>

Change Log :

- Adding account balance.
- Activate / Deactivate auto-renewal server by server.
- Use balance to buy or renew a server.
- Telegram bot for notifications.

swire - February 10, 2023, 7:57 am

Dear customers,
We are back with a new update !

We took some time away after implementing, what we think were the main features needed as a host. Our vacations are now over, and we are back with a lot of new ideas that we are eager to implement.

We will start slow with this week update.

Change Log :

- Improving user feedback when re-installing an OS by displaying error messages like "Password to weak"

- Swire is now available on I2P :

<http://kiplgox2gmhmf2pg2iwnkr2wuywcp6dnub6b54mqlqk2jiuunkka.b32.i2p/>

- We have updated our ToS by adding this line : (including actions that may get the ip of your server blacklisted by spamhaus)

Swire Team.
