Thread: [does anyone have a hacking study group that I could join?](#)

revertedreasons - November 6, 2021, 9:29 pm

I'm looking for something that meets via Zoom, Discord, or a similar format. I would like a group to get help with TryHackMe, PentesterLab, PortSwigger, and/or Hack The Box. Could someone please help me out with this?

I want to accelerate my learning, help others learn, and maybe have someone to chat with during breaks.

You should check the group/crew section, what you looking for might be there

I don't know of any active platforms anymore. Sorry. The world is an ever-changing place. The FBI has scared most from colluding.

Google reverse engineering/Pentesting/cyber security/infosec discords and you'll find lots of communities that would be more than happy to teach you whatever you wanted to know.
