Thread: [Free paypal, amazon gift cards and more..](#)

Hey folks, I THINK this is USA only. but feel free to try it if you're somewhere else.

I have an app that is the easiest, quickest way to earn free money to paypal, amazon gift cards and some other options.

All I ask is that you follow the instructions below and use my referral code.

requirements > email and phone number to verify (you can't use voip)

The app: Checkpoints (available on google play and ios app store)

http://chk.pt/download_cp

When you login it's VERY important. after you enter your email it will ask if you'd like to enter a bonus code. Please please enter mine: wecanbothwin if you do, we'll both get an extra bonus.

How the app works:

you get paid for scanning receipts, surveys, etc.. BUT that's not where the money is.

you have an option to link your loyalty accounts. they have a bunch of options, some work, some don't for some reason. but try them all. If you don't have an account with one of these stores, just sign up for free and then link it.

you'll get 1000 points for each account.

you need 12k points for \$25 paypal but only 8375 for 25 amazon gift cards so I go with that option.

You can easily get this amount just by linking accounts! Plus if you refer you get 100% of whatever your referrals get for two weeks.

So give it a shot and let me now how it goes

and don't forget my referral code: wecanbothwin

Thanks!
