Thread: [This website has made more millionaires than any?](#)

Asbjørn StahlGarne - November 7, 2021, 7:10 am

Prove me wrong? When I just remember when I came to the website in 2009 damn I was a fool for wasting coins around haha

Just listen to your guts!

shreder - November 7, 2021, 7:16 am

I do thank Omni for creating a cryptocurrency section, I remember when I started I used the mining subsection all the time.

Omniscient - November 7, 2021, 7:56 am

I can think of at least 5 that I know of. My guess is there is probably more. Every now and then I get a PM from pre-2015 member thanking me for where they are because of HF. Sometimes it's a career, sometimes it's just life, but sometimes it's crypto.

Vitani - November 7, 2021, 8:02 am

Not really on that scale of success yet myself, but HF did help in a big way to set me up with a good life.

I do know several members who would fall into this category though, and I'm pretty sure HF had something to do with their success in one way or another.

?OMEGA? - November 7, 2021, 8:57 am

You have no idea how many i know from back in the good ol days of CPA/PPD marketing. That has become multi-millionaires.

This forum has had the biggest impact in my life of all things when it comes to money, knowledge. And good times beeing online. Especially when i was a kid.

Echoz - November 7, 2021, 9:05 am

Genuinely, I feel as though this forum was a gift. Knowledge wasn't a siri or google search away. This forum opened many people's eyes to new options.

Grim - November 7, 2021, 9:32 am

i can genuinely say my main job as well as my side hustles i can contribute from this forum in some way or another. i am by no means a millionaire at all but i doubt i would be where i am today without this place and people i have met here and helped me over the years.

would also like to add that that i will throw a little bit into omnis crypto tips in that section and for the most part they have paid off big so far

Sholi - November 7, 2021, 9:33 am

Because of you & HF I discovered ETH, bought a good bag (paid for the award too) and held for years. Thank you. And that is just scratching the surface for how much HF has done for me.

Joy - November 7, 2021, 9:35 am

Everything I am, HF has played a major role in my life. Got addicted to tech and crypto from here. Not a millionaire yet but I will one day. All in all, HF has really changed my life for the better.

Omniscient - November 7, 2021, 9:40 am

I told people to buy ETH at \$10.

<https://hackforums.net/showthread.php?tid=5317930>

Fuck us all for not being millionaires. A \$2500 investment 5 1/2 years ago is \$1m USD now. Ugh. Let's try not to be bitter though. Still opportunities and lesson learned. HOLD HOLD HOLD.

Sholi - November 7, 2021, 9:45 am

fugg us all for not being millionaires. A \$2500 investment 5 1/2 years ago is \$1m USD now. Ugh. Let's try not to be bitter though. Still opportunities and lesson learned. HOLD HOLD HOLD.

And I bought at that exact time when it was just recently added to Coinbase. I was convinced but not enough. Bought just 23 back then and sold last year LOL. Fuck me.

Anyways, what are you convinced about this time around?

Omniscient - November 7, 2021, 9:55 am

Pains me to say this but I've already plunked down my money on Radix. It represents 30% of my holdings. I like my Divi too. Done well for me and I still think it can break out. I've got a handful of others I am looking at too but nothing I am yet convinced are the right decision. Most of the market is doing well so it's really not hard to throw a dart and see a good result. I mentioned WAX before and also SECRET which ended up exploding.

<https://hackforums.net/showthread.php?tid=6172251>

Secret was under \$2 when I made that thread less than 60 days ago. It's a 500% gain anyone that decided to move on it. Unfortunately that didn't include me. Never did get a bag. :(But that's okay. My portfolio is up just like everyone else probably. Good market till January at least.

popZmoke - November 7, 2021, 9:59 am

A very good forum when it comes to growing your knowledge indeed.

Suggestion - November 7, 2021, 10:00 am

I wish I discovered this forum and crypto many years ago. Oh well better late than never.

Sholi - November 7, 2021, 10:05 am

Holy shit I missed that one. Would you consider moving a percentage of your holdings to a stablecoin before January a smart move?

Sir, HF has made me what I am today. I was a broke anxious kid when I joined HF. HF cured my anxiety, it gave me friends, business partners and so much more. I can't imagine what I would have been without HF. Thank you so much.

Omniscient - November 7, 2021, 10:41 am

Way to early to know the best move. Crypto market is very dynamic. Oddly enough it's not as unstable as it has been imho. We're moving away from volatility imho because of the size of the market. Eventually a 2% daily move in the top 10 will be the biggest swing. Just like the stock markets.

SIM-82498 - November 7, 2021, 12:37 pm

I have a lot to thank HF and Omni for in regards to where I am in my life financially, for sure. Joined the forums in 2009 for Habbo Hotel hacks and the rest is history.

xyzmanas - November 10, 2021, 12:35 am

@Omni Just wanted to thanks all the folks who made this forum and kept it running.

I joined back in 2010 because I wanted to learn about Sql Injection. It's been 10 years since and I have gone places. Invested early in Crypto, mined shitcoins and sold them off.

Made a career in Security and then moved to Product Management post business education. I'll be soon starting a P2E sports game project with a group folks here.

Came back to this forum after about 5 years and I am so glad to see that this is still active and all the amazing folks from the last decade are still here.

Kinda brought back sweet memories and some tears ?

Thanks for everything man!!

ep1capple - November 10, 2021, 2:54 am

HF appreciation thread <3

Tightarse - November 10, 2021, 4:35 am

I'm pretty fresh here, but truly appreciate the informative posts and more so the critiques that people place on projects. I think I've hit five projects that have doubled or tripled in value so far.

I do think that I need to take more of Omnis advice and turn those profits back into Bitcoin that I can HOLD and STFU.

CyberError - November 10, 2021, 5:27 am

the number can easily be in thousands , if were talking about getting successful because of HF exposure

Maskin - November 10, 2021, 6:31 am

For sure. I joined HF because a friend told me you can make money here but I didn't know what crypto was.

In early 2014 I started mining BTC with my GTX 670, and I learned all that here. Unfortunately, I never understood how huge BTC and crypto in general could become until the 2017 bull run and even then I wasn't fully convinced but I did get some bags.

Today, I'm over 2/3 of my savings on crypto.

CinderGhoul - November 10, 2021, 7:39 am

2009 member here as well. I did make some money from sales and methods from hf. It is the reason why I strive for financial freedom. I remember seeing omni's swimming pool in LV/LA and thinking damn I can really be financially free making money online. Sadly i missed the crypto train.
