Thread: [Earn unlimited Paypal or Amazon Gift cards - method, unsaturated](#)

Gracioso - November 10, 2021, 2:35 am

Hi Folks,

First, I THINK this is USA only. But if there is someone in another country that wants to test the method for me using VPN, virtual machine, etc., hit me up and I can share the method with you.

Now, the meat.

I'm going to show you a method where you can earn unlimited Paypal or Amazon Gift Cards.

This is legit, real and exciting.

I'm not afraid to share this with as many people as possible because we all deserve some free moolah and this can't get saturated. As far as I can tell it will be available for a long long time.

Now this isn't free money for doing nothing, but it is free money for very little work.

You will be able to earn a \$25 amazon gift card in under an hour. And you can repeat this over and over.

There will be ZERO investment to earn your first \$25-\$50. After that you'll need to invest \$1-\$2 for every additional \$25-\$50 you'd like to earn.

I will give 2 Vouch copies to reputable members that promise to actually test the method and report back.

After that the cost will be \$50 Crypto per copy. I think this is more than a fair price as you can earn this back in the same day - even much more.

Happy to answer any questions, shoot me a message or drop a note in the thread.

Thanks!

Gracioso

I'm in the US and can test this out right now for a vouch copy, let me know

He sent me a vouch copy and I completed the steps to get a \$25 gift card already. I've seen/used similar methods to this in the past but nothing specifically this.

Was super easy to do what needs to be done, took less than a hour. Assuming I get paid out, with some planning and set up you could scale this up quite a bit and make it pretty fast.

As for getting paid out, it says it can take up to 14 days but seller said it usually doesn't take that long so we will see. I'm not going to continue to do it until I see that first payout just in case, but he has shown proof of them sending the cards.

Overall, its worth it in my opinion, as long as payout comes through. Will keep everyone here updated on if that happens.

Thanks man! You will get paid. But totally get that you don't want to spend the time until you know for sure. Let me know if you have any questions.

Hi mate, it definitely works. I have a couple vouch copies out there. One already commented above. He should have his gift card in the next day or so. Feel free to dm with any questions.

Is this related to inboxdollars or swagbucks where you complete offers like downloading apps and completing surveys for gift cards?

This gentleman has been closed, but I'll answer the question. This is a rewards app, yes. You can earn by taking surveys or scanning receipts - BUT that's not what we use it for. you can do all that, but it pays diddly squat. I have a way to exploit the app, to earn a lot in a reasonably short amount of time. See the gentleman above, he spent less than an hour and earned \$25. He's holding off on doing any more until he gets paid, which is understandable. But it's repeatable, over and over again.. with just a few steps.

Seems interesting have a few questions if I may.

Is there a chance of getting your account banned?

Do you need to talk to anyone?

Do you need to create multiple fake accounts or all the GC can be received on the same account?

Yes, you may. :-)

I'd be lying if I said there was zero chance of getting banned, because I suppose there is always a chance of getting an account banned. I've been banned on quite a few sites/apps for doing nothing wrong. :-) That said, I haven't had any issues.

you don't have to talk to anyone. Their FAQ says it takes two weeks to get paid, but I've learned that if you reach out to support, they'll usually send it much quicker. so up to you if you want to reach out to support or not.

Both. you need to create multiple 'fake' accounts if you want to scale and truly earn an unlimited amount. That said, you can still earn using the app legit, it's a good app, but to really increase your earning potential you need to create multiple accounts. Luckily, they make it very easy.

And I just received two this morning..

If you have any other questions, let me know.

???? - November 15, 2021, 12:43 pm

I received a vouch copy from OP to try this out and see if it could work outside of the US. Unfortunately I had no success.

But the method that he's revealing in his e-book is very straightforward and easy and doesn't take much time to setup. If you live in the US you should give this a try.

I can't show proof of payment as I couldn't use the method here, so take note of that. Other than that, I vouch for this e-book.

Ahhh shit, sorry it didn't work out. Now we know.

Hi Everyone. vouch copies have been given out but due to the fact that it can take up to two weeks at times to get paid, I understand that people may be weary to purchase until the vouchers get paid.

Because of this I've decided to offer a special deal until people can start posting payment proofs. I'm offering 2 options:

- 1) Discounted \$25 price (until first proof of payment is posted by buyer or voucher)
- 2) Regular \$50 price with middle man (rules apply, see below)

Middle man rules:

- 1) Must be trusted mm agreed on by both parties.
- 2) Must show proof of executing the method at least once within the first 24 hours. Otherwise you forfeit your payment. I'm willing to extend that time for good reason, but that is at my discretion.
- 3) upon receiving your first payment, mm funds will be released to me. Doesn't matter if you don't earn enough to cover the \$50. If you don't earn at least \$50 it means you didn't put in any effort. You can easily earn \$50 in about 30min to an hour.

These terms may be negotiable if your asks are reasonable.

Thanks!

When trying to get the app off of play store. It's probably possible to bypass it with a residential proxy as you mentioned. I did not use that when trying.

Update on mine, just received today! Customer support got back with me and said it shouldn't have taken that long and they processed it right away.
So this does work, now to scale it bigger.
Again this method can be done over and over with very little work, I only did it once just to be sure it

worked as to not waste a bunch of time doing it again and again.

It's obviously one time thing and OP is bullshitting. If it was unlimited for him, he wouldn't be selling it for \$25-50. Wake up

First, I was not bullshitting... This was working. I just tried with a fresh account and can confirm that the points are not coming in. They either put some restrictions on how they give out points OR their app is not working properly which wouldn't surprise me because it has had issues in the past.

I've sent a note to support from my new account and will see what they say.
