Thread: [\[GREYHAT\] PRIVATE METHOD | 50,000+/YEAR | Unique Method | 1on1 Mentoring | Worldwide](#)

Proxily - November 12, 2021, 12:40 pm

2 Days of Earnings Below

Starting price to purchase is \$750. \$1200
Each additional copy will be \$250 more than the previous price.

[contract=uid]Start Contract to Purchase[/contract]
Crypto ONLY for payment.

Greetings,

This is a private greyhat method, if you are not okay with doing that. Please don't purchase this. I have created this method myself, it isn't related to nor affiliated with any other eBook or method you have come across.
Completely unique to itself.

This method is not for beginners in the money making scene. If you have no greyhat experience I also would not recommend this to you.

This is for seasoned members of the online money making scene.

This is also intended for people who are already making money and want to explore another avenue (hence the price).

No Ratting

No Botnet's

No Mining

No E-Whoring

No Trading

No Gambling

No Dropshipping

I only plan on selling a few copies of this, as the method will get saturated if too many people jump aboard. As of now the only one doing this is myself.

Things needed;Website

Domain

Hosting

BTC and/or XMR wallet(s).

You WILL need a custom website, if you do have HTML/CSS/JS experience this is perfect for you. If have ZERO experience creating websites don't worry, I can provide a website for you at an additional cost.

This is not a get rich quick overnight method (doubt there is any). It will take some time to set everything up, once the ball is rolling it becomes a lot easier.

By purchasing this, you are not only going to receive an eBook detailing the process, but 1 on 1 mentoring. I will help you when you need it.

Starting price to purchase is \$750. \$1200

Each additional copy will be \$250 more than the previous price.

Hey,

Would you agree that the MM holds the funds until earnings are proven?

cheers

In normal circumstances yes, but for this I do not want to. I want to have my back covered too, especially since this method can get saturated.

mudbenson - November 12, 2021, 5:51 pm

Is this the same method as the blackhat one you just closed?

Rabbit - November 12, 2021, 6:41 pm

Is this anything to do with CPA?

What's the harm in a MM? If method works, you should 100% get paid. If there's risk of getting paid to the buyer, why would they risk investing?

Worried they might just say they never earned anything so they don't have to pay. If it's a trusted/reputable member then I suppose I am for it.

Currently in talks with op about purchasing the vouch copy with MM, will update with a very thorough review if things go to plan.

Sayid - November 15, 2021, 1:41 am

Purchased the vouch copy, so far the method is what you are paying for, very easily can see why the method is profitable. I will update within a week or two with a vc review and proof of earnings.

Any update? Thanks.

I'd like more info on this. I have purchased a greyhat method for \$3k, however OP oversold the method and it got super saturated an it fell apart very quickly. So, my question is, can this method become saturated?

Yes this will become saturated if leaked/oversold.

I do not intend on selling many copies at all as I still personally use this method.

Sayid - December 5, 2021, 2:20 pm

Purchased this method with MM, middleman held funds until I received my first payment. I can report that I did in fact make my original investment back, and now I just earn semi-autopilot crypto. I could show screenshots of my earnings, but they are just BTC & XMR transactions and that really wouldn't prove anything. The pdf provided by Proxily was a bit lackluster, I gave him a few suggestions, and he seems keen on making changes. But at the same time while a bit lackluster, the method itself is self-explanatory it doesn't need a large amount of extra explaining, and any questions I did have, he answered. The idea itself isn't super unique, in the past I've even pondered doing something similar, but with Proxily's help, it came into fruition. The method is easy, doesn't have strong requirements, and if you put in 1-2/hrs a day or even half that, you'll make your money back no problem, my advice, if you buy the method, is don't give up if you don't earn the few days,

its definitely a method that grows near-exponential long-term. For me, this isn't the type of method I'd use as a main source of income, but set up correctly, would be a great, as mentioned, semi-autopilot money-making method for good supplementary income.

Of course, take everything I say with a grain of salt, Proxily was a chill, kind fella to me, but I can't vouch for his future activity. I say this, not to discourage you from buying, but just so you understand that at any point he could stop providing high-quality support and that has nothing to do with my review or me.

If you have any additional questions for me, feel free to ask via this thread or my PMs

Who did you use as a middle man? Why is there no contract between you guys?

Lavish was our middleman, and the reason no contract appears is that he never confirmed it, I did my part, he just never got around to his.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
