Thread: [Cashapp/venmo question](#)

Trying to explore more on ewhore , is it possible to make an account in venmo or cashapp ?

Is it possible to make an account on asia

CashApp is only available to US/UK citizens. Venmo is US only.

So if you're from Asia, you can't open an account, not legally at least. And talking about that would be against HF rules :)

Both are for USA only. You can use a VPN for Venmo but I can't tell for Cashapp.

Anyway, Paypal and Amazon GiftCards are the most used payment processor in Ewhoring.
