Thread: [Hide specific awards](#)

??? - November 16, 2021, 3:34 pm

I usually hide all my awards as i believe it brings a cleaner look when replying to threads. I know, not everyone cares about looks or awards and that's fine, i'll accumulate my awards in secrecy till I am content. However I think it would be great to have the ability maybe pay 5-10bytes and disable individual awards to really add customization to your profile. For example if i wanted just one award to show. Just a thought any feedback on this? Would this even be something anyone would even consider using?

Yeah nah I believe this this is a great byte sink but 5-10 ain't shit, if Omni big fucked this and made it 1k per it might actually be a good sink.

In the unlikely case you want to do this for just your own benefit: <https://stackoverflow.com/q/387260>

Otherwise, I'm all for adding the feature to pay for hiding individual awards. I've got only three so for me it would make hardly zero difference, but nice to have nonetheless. At least that, compared to folks here with walls of awards. Ten or fifteen pot leaves over a few different donator gems along with maybe an MLP icon. Those fellas probably wouldn't need to hide any of them.

I've wanted to do this recently. Need to find some time for it.
