Thread: [Help Upgrading Account To Ub3r](#)

Dehyped | ?? - November 17, 2021, 5:20 pm

Sorry, this is probably very newbie and out of place but I see no other area to post this that's appropriate. It's been 24 hours since I completed the upgrade by paying \$25 BTC to the correct address and meeting the correct requirements but I have yet to receive an upgrade. I have the invoice for the transaction pulled up on my Coinbase account, if a mod or admin could help that would be great.

Thanks in advance.

Give it another day. When you wake up it should be good.
