Here is my review on this method:

Method itself: 8/10

Overall i have seen this method mentioned before, but the way the OP dives straight into it with no bullshit is good, i was getting started as soon as i opened the book. The method can be a good way to drive some extra traffic to either your website or sellix page, but so far after about 2-3 days i haven't received a lot of traffic, though OP reassures me it can take up to 1-2 weeks to start receiving sales (thread states same day)

There is an investment needed, but this is literally \$5-10, and thats it.

OP/Support: 8/10

There wasnt much support needed to be honest because its a very simple method, but any questions i did have were answered by OP quickly.

Overall, this ebook is great for beginners getting started in the ewhoring scene.

E-whoring.. seems okay coz adult content will stop existing only if people stop existing
