Thread: [Discord imposter "selling bytes" posing as Lrrr](#)

Doc - November 22, 2021, 12:52 pm

I believe this is the same scammer that has a history of posing as reputable HF members, now they seem to be posing as [Lrrr](#)

Here's a SS of my own interaction with him:

A screenshot of another member's interaction with him:

This is a good example of why you should always double check to make sure your contract has been accepted before you send money to anyone here.

I didn't realize this wasn't actually [Lrrr](#) until recently when I saw another HF member share a screenshot of their Discord interaction with this guy.

As of the time of this post, the Discord username they are using is: Lrrr#0709

Their unique Discord UID: 603498596695801881

EDIT: Thread closed, just saw the thread on these types of threads being disallowed.
