Thread: [Share bandwith earn money - Not HoneyGain or Iproyale](#)

nniks1999 - November 25, 2021, 11:31 am

[Link](#) NEW APP! I read people earn around \$5-6 per 2-3 days.

I will post my withdraw proof as soon as I reach minimum!!!

Also:

Yes, You may use VPNs but only if the IP is residential. Note that using VPNs is not recommended. Why? Because if you use a VPN that gives residential IP and others use it too, with the same IP, it might be marked as non-residential IP. And then you don't earn – you won't get traffic at all (you will soon see a notification in the app saying this, to let you know)

Also I didn't see any info about how much you earn per GB or amount of bandwith used.

I think it depends on the country you are from.

Their FAQ says:

You will be paid when your balance goes over \$5 using PayPal or when your balance goes over \$25 using Amazon gift card.
