Thread: [Game of thrones](#)

Pochino - November 25, 2021, 12:30 pm

Sooo - we just finished the game of thrones and we are more than sad about that desaster of ending :D

Now I need the books. Does some one know a good source to get the ebooks or the books in german or english cheap?

Thank you in advance!

The ending is a disgrace.

After investing so many years into it, I stopped watching after what they did to The Night King, that was shocking.

As for the books, surely you can get them on Amazon quite cheap.

Already got the ebooks for free - got a good site for ebooks and forgot about it - they are in english now - time to learn more words :D

I do not know if your statement is sarcasm or not but it was bad not only because of the night king haha

They spent millions of dollars for an episode that you literally don't see shit the entire time, makes

sense.

Not only that, felt like they rushed the end. Doesn't feel like the other episodes.

100% true - quicklove for you my friend

M4ST - December 3, 2021, 4:54 am

WOW dude - thanks for that share!!

Silent_eve - December 14, 2021, 6:45 pm

Most epic tv show for the worst ending ever!

Im okay with Daenerys going full psycho but the way they rush it way tooooooo fast and did not make any sense at all im just mad just thinking about it awwwww ?????

More than true, sir.

Maybe we are lucky and they are producing another Episode hahaha

Pochino - January 2, 2022, 9:40 am

Yeah - the ending is horrible. Got all books now and started reading a week ago - way more informations than in the series

They didn't want to wait for the books (base so they rushed to the end indeed.

Hopefully they manage to somewhat redeem themselves with House of the Dragon.

If they destroy that one we have to riot :D

We just get into their network and replace the video with one made by us - who is an good actor?

We just get into their network and replace the video with one made by us - who is an good actor? I personally didn't mind how GoT ended, I just wish they didn't rush through all of it. But even a couple of seasons before it ended the Lore said Bram would be King. Arya was written to be "death incarnate" but they didn't really follow it (they were gonna give her spin-off but the project got canned.)

Jon Snow's story was supposed to be a tragedy, Khaleesi's was supposed to be a sort of "history repeating itself" thing.

I think it REALLY just left a sour taste because they spent 7 seasons and 6 episodes building up to the final episode, and the final episode itself wasn't as good as 2-6 of season 8. (as mentioned, because it was rushed.)

Horse - January 7, 2022, 7:37 am

ending was very lame wish I never watched it.

Omniscient - January 7, 2022, 2:13 pm

Fuck GoT. Suggest you watch The Last Kingdom on Netflix.

https://www.rottentomatoes.com/tv/the_last_kingdom

No fucked up endings by idiot directors.

FUCK these two ass clowns.

(Jan 7, 2022 03:28 PM)Panik Wrote: [\[CITE\]](#) Yeah, FGOT. If I could erase the final season from my brain, I would. About to rewatch LOTR to cleanse my memories.

I approve all of your opinions! Thanks for the share. Will watch the Last Kingdom.

I could google it, but is House of the Dragon from the same guys? I mean it will be fucked up again i guess?!

And how the fuck they did not approve a sequel with Arya? I mean she is THE CHARACTER we need.

Anyways let's hope that the upcoming LOTR series will not be fucked by amazon ..
