DAY 1 PROFIT - \$1600

HypeGuy - December 3, 2021, 10:20 am

After cashing out yesterday, we made a nice \$1600 profit so we're 16% ready for our target of \$10 000 monthly. These were the amounts I managed to cashout for :

This is what I'm playing today:

It's a nice way to make some cash.

Another win today which brings us to over \$2000 profit in 2 days so we are getting closer to our goal ?

I will be working on a group today. I would like to get recommendations on which platform will be better or I should use both Discord and Telegram ?

We won some money yesterday and this is what I'm betting on today:

L1I DuRk - December 5, 2021, 5:59 am
