Thread: [\[FREE\] custom Office365 account + 5TB Onedrive](#)

V.V.V.V.V - December 7, 2021, 5:19 am

Hello

Have seen a bit everywhere that it happens that people sell office365 accounts with slightly different cusotm domain names.

There are several different options for this and most often it is about registering on a company or school's registration wall.

Do not know if this has been shared before but think that I share a quick tutorial for people who want to take part in this and avoid paying for something that you can get for free.

Step 1.

Head over to: https://a1_sc.a1od.workers.dev/#intro

If you do not know Chinese, I recommend that you use the translate function in chrome.

Now it's getting a little easier to read

Then we scroll to the bottom of the page and fill in the form and click submit.
After that, you will receive login information for your newly created account.

After that, we move on to login.

On the first login, you will be asked to change the password. So change to something of your own and then log in.

Hope this will benefit someone. ?

Signed up thank you. Wonder who owns the domain. When i reverse google search the domain, this is all over google. Has MS not decided to patch this up.

It does not seem like it, so it might be a good idea to use it before it is patched.
However, this has been around for quite some time now.

idk it looks like a scam tbh.

the page layout is even a bit broken looks too fishy mate

Wow, pretty decent. Thanks for sharing with the community! I envision this helping a bunch of people with vocational dreams.

Tks bro, but the onedrive seems doesn't work. When I go to drive from office.com, it returns "dhuiracid-my.sharepoint. com/_layouts/15/Throttle.htm#1033" and printed something's not right. Also can't log in directly from onedrive
