Thread: [I can nuke discord servers for cheap](#)

sanzxafiz - December 8, 2021, 1:32 am

I can nuke discord servers for you for cheap.

I will only be nuking the server.

Edit: (You need to have admin or some kind of backdoor access to the server)

I could try to social engineer if its some unexperienced discord user or some random 14 year old xD

If I end up having to do this ^^ then I guess you won't have to pay until I successfully get access.

Depending on the server - Members, Moderation etc. I can do the job from ~0.005-0.007 ETH

Dm me at Discord - [sanx]#9884

It's understandable if you want to discuss it here first, if that's the case, Just send me a PM.

You can choose whether you want to

- Ban/Kick Members
- Delete Channels
- Delete Roles
- Get Admin on a specific account
- Create one channel with your choice of name after nuking
- Spam ping

- sanx

Might want to specify that to nuke a server you need to have admin access already.

Yeah, I said I would only be nuking the server. I'll edit it and put it up clearly just incase.
